Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

In 2008 I purchased my home with The dream that this community would improve over the years. I had high hopes until the homelessness population arrived. Now everywhere I drive around the neighborhood I find trash everywhere, unsafe hot and shelters of their own, needles everywhere, and sometimes they act dangerously and rude. Are used to work for a low income homeless nonprofit and I understand the struggle but when it starts affecting everyone for us to do our job correctly then the government must get involved. I ask and I played for you guys to make a difference, to do your job, to listen to her voices, and to be a part of that change that we desperately need
