Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Allowed people to camp anywhere in Portland has been an awful idea. People need to be in shelter at the very least. I no longer feel my area is as safe as it was even 5 yrs ago, and the pandemic has been the last straw. Parks absolutely should not have houseless people sleeping in them, nor should any adjacent areas allow this including parking lots. Designated shelters with services are needed. No more tents, anywhere,.
