Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

This is absolutely ridiculous that we are even considering this option. You will be taking the parks away from children - children's sports/ playgrounds will be unsafe. Walkers having to step over garbage and needles- I stay away from downtown because of this issue- please don't push me and my neighbors out of Portland. We work hard and pay taxes so we can enjoy these parks! If this passes this city is doomed! I will be moving far far away!
