Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

East county already looks like a wasteland .Marine DR. , 33RD, 122nd, prescott, mail theft, car theft the list is long. Seems like another band-aid that will not work. Lac of law enforcement has caused this not covid, it was bad before covid, 1it's like were in a mad max movie. Community input a must. We cannot manage our streets let alone camps. Please make our city liveable for your taxpayers again.
