Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I worry about the safety of the people who use the parks including the safety of the people living in the park. If there isn't a better solution than we need to mark the area off where camping is allowed, provide sanitation, water and garbage cans. We can't let the sensitive environmental areas be trashed. There are places in Gabriel park that are predominantly grass and have bathrooms. Marking off a section and providing oversight, preferably with social workers, would be a better option than simply opening the park in general.
