Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am against the proposal to lift the restriction in public area (like parks) to allow temporary camping/homeless camps to be set up. This does absolutely nothing to fix the problem, and just shows the complete incompetence of our elected (and publicly paid) officials to come up with real long term solutions. This group of officials have destroyed downtown and now appear to have their sights set on other areas of the city. My message is - come up with real solution that actually creates solutions to our problems - don't pass the problem onto someplace else.

Testimony is presented without formatting.
