Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

“OPEN SPACE” needs to be amended. Brookside Wetlands new small 15’ trees destroyed. 40 tent sites sewage contaminates Johnson Creek plus toilet paper. August/Sept FIRE DANGER to over 400 contiguous Residential Homes is TERRIFYING. The CITY WILL BE HELD RESPONSIBLE with undeniable LAWSUITS. Fires will happen as did last summer. With a Gorge wind we can’t mitigate. It will happen!
