Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Some people may be confused about the difference between "sanctioned" and unsanctioned camping in parks. However, many of those who have been testifying against camping in our parks understand the difference and do not want camping of any kind in the parks (even though they may not have used exactly the right words in their testimony). Please don't just dismiss their concerns, assuming they are "confused".

Testimony is presented without formatting.
