Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Hello. I am testifying against the homeless camp in Gabriel Park. This is a safe place for the community to gather for walks, playing with family, a dogpark, picnics and other family friendly activities. Gabriel Park is also right next to a community center, school and church. While I believe that we should have compassion and provide adequate options for those who are homeless, Gabriel Park is not the place for it. Moving a homeless camp to this location is unsafe for the children and families in the community.
