Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Worst idea ever. You take one of the best things about our city and potentially ruin it. Find a different solution. Bring in the best minds to consider alternatives. Brainstorm with other city managers across the U.S. and globally that may have made progress regarding this complex problem. We just passed a huge parks levy, and that money was not intended to benefit homeless camps to be set up in our beautiful parks.
