Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Parks are not living quarters or even sleeping quarters for anyone. Your horrible intent to make changes to allow the homeless to live in Portland parks would also be unsafe and scary for children which would leave them no where to go! It would also turn parks into a huge drug and feces litter area! In addition there is no one to keep the parks clean, and no law enforcement to patrol the parks! Parks would no longer be usable and anyone voting for such a change should resign or be thrown out of office!
