Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I refuse to recognize the efficacy of any plan to make it easier for impermanent shelters until there is a plan for the financial support of those needing shelter...besides preying on the neighbors! Inviting people with no means of support into residential neighborhoods is creating mayhem. We need some WPA type projects to occupy people, give them something to do, and make it clear to neighbors that there is an effort to improve. Humans need something to do! Besides prowling cars and stealing stuff.
