Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I do not want the City Council to lower city codes to provide city parks for homeless without a specific time line to when this would end. The city must provide, if adopted, all services including garbage pick up, drinking water, functioning toilets, and police oversight to protect the homeless and the public in these areas the council has proposed. Portland used to be safe and clean, and now it is not. Council is making another token gesture by this measure to the residents of this city who are affected directly by poor city decisions.
