Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

REALLY HOMELESS PEOPLE IN PARKS WHERE OUR CHILDREN PLAY AND WE WALK OUR DOGS??? Everything in this beautiful city already looks like a complete trash pit, now you want to ruin a few of the only clean safe places people have to enjoy with there families. Our parks already has plenty of garbage and needles without inviting the homeless to live in our parks. This is a recipe for disaster and I can't even believe it's being presented. Find other solutions or plots of land you can put in dumpsters and toilets and LEAVE THE PARKS ALONE, it's about all we have left in our trash filled streets!!
