Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I am a manager and player for a coed softball team that plays at Delta park. There is already a huge issue with homeless down there and we did not feel safe before, adding more to the area is not going to solve that. Now with covid and not having spectators my boyfriend can't come and walk me to and from my car. I worry about my car being broken into. There also isnt enough parking to begin with for the league nights, this would surely make us have way less. If this is allowed to happen we will have no other choice then to take my team elsewhere which likely most teams will do and will be a huge loss for Delta park. Find another way around this that doesn't affect parks and parking lots close to sporting events.
