Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Commissioner Rubio & Commissioner Hardesty, I am an advocate of providing long term support and solutions for our houseless neighbors, however, I urge you to hear the voices of Portland's citizens asking you to explicitly remove trails, parks, AND park parking resources from the S2HC ordinance language. To risk access to these gorgeous and well used resources for all of Portland's citizens would be a travesty. As a leader, I believe you have an obligation to steward the value and livability and our city now and into the future. Thank you for your service and consideration,
Dominic
