Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Hello, I'm writing in today to express my concern for the proposed usage of Portland International Raceway facilities as a homeless camp. This park is loved and used by many PNW natives for auto events, cycling events and everything in between. Allowing the inevitable trashing of this facility would be extremely sad and drive away big events that rent this track out year after year. In addition to my concerns around PIR I am deeply disturbed by the thought of any public parks being used as homeless camps. These are resources that young families enjoy on the weekends and they need to remain as safe, clean and well-kept as possible for our children. Please reconsider! Thank you, Nial Givens
