Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

The zone change allowing homeless to destroy...yes DESTROY...and add even more ugliness to the city is a HUGE NO!!! This track is enjoyed by many and has recently become even more active like the older days. Putting homeless on or near the track would put our families at risk when attending much loved family events! We-Portland-is already an embarrassment to drive through! This track is a place families can go and enjoy safely. Absolutely NO homeless camps!!!
