Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Do not allow PIR to become a haven to homeless. My family has been racing motocross there since 1981. We are true Portland born residents and have seen Portland fall apart due to it's leaders catering to the wants of the weak and not standing up for the true Portlanders who've lived our whole lives here. If you feed a rat, more will come, then soon you will have a rat infestation.
