Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

PIR is a public park, not a homeless camp ground. Car enthusiasts spend alot of money at PIR and have the right to know them and their familys are safe when using PIR. This is just a way to sweep.the problem under the rug. Crack down on illegal activities and hold them accountable, thats what is needed. Hand up, not hand outs..... Portland is a garbage dump and elected people are allowing it to continue to happen. Time for change!
