Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

This race track is a great staple of portland how many kids do the parade of lights. Or the dog walk or bicycle ride. I personally go every friday to the drag races and have for 30 years why would you turn it into a dump. If you move the homeless here they will never leave and it will make it impossible to use for any event ever again it will become a massive dump for all to live in shambles like most our freeway overpasses please please dont do this save this last shred of joy and keep racing safe
