Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Portland International Raceway is one of the few parks which derive much needed revenue for the city. It also creates a large amount of economy for the businesses in the area. So many groups use this facility, it would be a tragedy to end the use of something with more than 60 years of usage. Please keep PIR as it is, do not end something very few cities have. Respectfully, Tim S. Jorgensen.
