Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Please be aware that Portland International Raceway is an often used facility for high speed International racing events. Thru this racing venue(s) local businesses thrive and we are able to enjoy our sport just like public school activities and demonstrators are able to access. However, our activities do generate mentioned funding. Please do not include PIR on your Shelter to Housing Continuum project list. Thank you for your consideration.

Testimony is presented without formatting.
