Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

I was not able to read the draft but here are key points the local government should adopt immediately: 1) provide garbage pickup and porta potties to houseless communities. clean the place up. increase my taxes if necessary 2) Build micro facilities for houseless. A place they can safely live, keep their belongings, have access to sanitation. 3). Once these facilities are in place, close down the Ghetto camp sites around the city 4) The really hard part. If folks don't want to live in provided housing they have 2 choices: move or spend time in facility
