Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

Clarity could be added to the regulations through further employment of the Oxford comma. An example is Volume 2, Page 15, PCC 33.110.225 (A) wherein a comma might be inserted after the word "setback" on the second line of the regulation. Pursuant to ORS 197.615 (4), I request a copy of the notice of the adoption for these regulations. Thank you for allowing me to participate in your adoption proceedings in writing and for your kind consideration of my comment.

Testimony is presented without formatting.
