Testimony to **Portland City Council** on the **Shelter to Housing Continuum Project, Recommended Draft**

My city that I was born in and that I have lived over 50 years in is turning into my DUMP CITY. I have cleaned up 2 dump sites using my own truck and expense at METRO dump. I have asked a foundation to help support clean up by paying for dumpsters to clean up the city. What can you do? I am not in a leadership position and I pay lots of taxes. It is unbearable to continue to pass through 405, 84 or I-5 these days. Difficult to see these people suffer and to see no means to rid of their waste. My SICK CITY.
