Presenter name: Patrick Sweeney

Purpose of proposed legislation and background information:

- This ordinance will authorize a First Amendment to the Intergovernmental Agreement (IGA) with Multnomah County for staffing services for the Earthquake Ready Burnside Bridge project (Contract Number 30007280) to create a Supplemental Draft Environmental Impact Statement (SDEIS) as part of the National Environmental Policy Act (NEPA) planning process. If the project moves forward to design and construction, this IGA will be amended for those phases of the project.

Financial and budgetary impacts:

- This First Amendment to the IGA will accept additional reimbursement to the original IGA from Multnomah County for staffing services provided for the development and publication of an SDEIS. This First Amendment to the IGA for the project increases the total compensation for City services by \$499,804.00 for an amended total compensation amount of \$1,997,696.
- This project is budgeted in the Adopted FY2022-23 CIP for PBOT as project T00890 and will use grant number TR000281.

Community impacts and community involvement:

- This action is administrative, and the execution of this contract is noncontroversial and will not have community impacts upon its execution.
- The SDEIS will include a report analyzing the equity and environmental justice effects of the Project. The report will examine whether the project alternatives (including the no-built alternative) have the potential to result in disproportionately high and adverse effects on minority or low-income populations or communities and other historically marginalized populations.
- There has been and will continue to be opportunities for community involvement and comment during the NEPA process.
