Testimony to **Portland City Council** on the **Environmental Overlay Zone Map Correction Project, Recommended Draft**

It's already insane with the level of taxes we pay just to live in our homes, we certainly don't need additional taxes in the form of fees impeding us from doing proper maintenance ect. The newly proposed conservation zone encompasses my entire lot and home as well as many of my neighbours homes. There is no creek or water flow on my lot, the creek was long ago run underground behind my home and the existing zone encompasses the actual creek area.

Testimony is presented without formatting.
