Testimony to **Portland City Council** on the **Environmental Overlay Zone Map Correction Project, Recommended Draft**

It is critical that the Portland City Council hear from the Community that we want Council to move forward and adopt the corrected maps. Environmental initiatives have stalled at City Council in recent years and this project is likely to get some pushback from some landowners who do not want to have to protect natural resources. After years of work and extensive review at the PSC, there is no reason to delay—Council should expeditiously adopt the corrected maps. proceed forward and adopt the Updated Environmental Zone Mapping Thanks, Tim Donner, SE Portland
