Project Overview

S Bancroft & S Texas St Sewer Rehabilitation

- Approx. 1,230 feet of 6”-20” diameter mainline sewer
- Age of sewer mains is 100-114 years old
- Approx. 240 feet of sanitary service laterals
- Time-sensitive work taken from larger project that will be re-advertised at a later date
 - S Bancroft/Macadam - Multi-bureau coordination to reduce overall City pavement restoration costs where several bureaus have construction work within the same work zone. Work is open trench excavation.
 - S Texas St - Urgent due to a post through the existing sewer that BES Maintenance Engineering is concerned will cause sewage releases if not repaired prior to Winter 2022-2023. Work is trenchless rehabilitation and open trench excavation.

Construction Methods and Scope

- Open trench excavation and replacement
- Trenchless Rehabilitation

Public Outreach & Impacts
