MAYOR'S ANNUAL MESSAGE.

1895.

PORTLAND, January 2, 1896.

To the Common Council of the City of Portland :

Another year has passed away, and it is again my duty to present to your Honorable Body information concerning the condition of the finances of the city, and the work accomplished in the different departments during the past year.

Before proceeding to lay before you a statement of receipts and disbursements, I beg to call your attention to some facts which should be considered in reviewing the administration of municipal affairs during the year, and should be kept in mind in planning for the future.

Throughout several years of continuously increasing public and private prosperity, which stimulated enterprise beyond reasonable bounds, and expended credit and made it easy for public corporations, as well as private individuals, to speculate upon the future, the city government incurred obligations which have had to be met during a period of universal business and financial distress. Many of these obligations were not voluntarily assumed by the officers of the city, but were laid upon the municipality by acts of the state legislature. What has been thus done need not be criticised, but suffice it to say, that just as some of our citizens have burdened themselves with debt to erect great buildings, the city has been heavily laden with debts for public improvements; and, though the buildings may be beautiful and commodious, and of great public benefit, yet, in view of the conditions during the past year, the owners, like the public at large, may confess to errors of judgment and past extravagance in explanation of present stringent circumstances.

Our free bridges, and city hall, however convenient, have added to the expenses of the municipal government, and the interest upon the bonded indebtedness of the city must be regularly paid in spite of diminished revenues from the usual sources.

The cares of the city officers during 1895 have been much increased because of an injunction suit to prevent the collection of taxes, which was instituted and is still maintained by certain individuals for their own benefit. Although the estimates for the year 1895 had been carefully and economic-

ally made, so that a reduction in the expense of every department over previous years was contemplated, and the computations were made with a view barely to produce sufficient funds by taxation to meet the interest charges and other expenses that would necessarily be incurred, the persons alluded to procured an injunction to be sued out in the courts, so that the collection and use of the city's funds became impossible. On this account, default would have been made in the payment of the semi-annual interest due upon certain bonds of the city, but for some temporary relief that was granted at the last moment. And, notwithstanding the fact that the legality of the tax has been sustained by the court, and the right of the city to collect the tax is established by judicial decision, and notwithstanding the greater number of taxpayers have paid the tax complained of, and none but a few of the wealthier are still in default, and notwithstanding there are pressing claims against the city to be met and another installment of interest must be paid, and notwithstanding that the failure to collect the delinquent taxes will necessitate a heavier levy during the next year than would otherwise be required, these same citizens persist in keeping the hands of the government tied by appealing the case to the Supreme Court.

I feel it my duty to call your attention to this matter so that the blame may be placed where it belongs. I now proceed to show you by a brief statement of the receipts and disbursements during the year that an economical administration of affairs has been adopted, and that in spite of the heavy obligations incurred in former times, and imposed by state legislation, the city has greatly reduced its expenditures. It will be seen that in whatever department the Mayor has had the power by the Charter to control the outlay of money, a great saving has been affected.

Following is a statement of the receipts and liabilities of the City of Portland for the year 1895.

AGGREGATE STATEMENT OF THE RECEIPTS AND LIABILITIES,
CITY OF PORTLAND, 1895.

RECEIPTS.

To cash in Funds January 1, 1895, viz:

Deficit Dec. 31, 1895		\$ 85,866 82

SUMMARY STATEMENT.

Jan. 1, 1895—Cash in Funds	\$ 35,152 02	
Cash rec'd during 1895, all sources . .	562,413 64	
	<u> </u>	\$597,565 66

LIABILITIES.

Jan. 1, 1895—Warrants outstanding	\$110,897 17	
Warrants drawn 1895	501,337 41	
Interest Account	67,648 96	
Transfers to Street and Sewer Funds . .	3,548 84	
	<u> </u>	\$683,432 38
Deficit Dec. 31, 1895		\$ 85,866 82
Uncollected taxes 1895		91,051 90

The deficit on December 31st, 1895, was \$85,866.82. We have as an offset to this, uncollected taxes for 1895 amounting to \$91,051.90, the collection of which was enjoined by order of the Court. Thus, if the delinquent taxes had been collected, there would be no deficit.

An interesting table of expenditures during the past six years is herewith presented for the purpose of showing more particularly the reduction of expenditures in 1895.

Year	General Fund	Fire Department Fund	Police Fund	Street Cleaning and Sprinkling Fund	Street Lighting Fund	Interest (Not including Water Bonds.)
*1890	\$108,182.00	\$115,672.08	\$ 62,173.68	\$ 49,473.33	\$ 27,848.55	\$ 14,515.00
1891	142,923.37	124,644.65	85,490.53	68,816.00	40,018.81	28,465.00
1892	176,434.94	141,915.35	107,703.11	49,065.48	67,663.57	36,487.25
1893	172,683.09	150,558.09	119,196.43	61,921.40	75,007.89	47,822.99
1894	186,504.24	132,777.66	103,993.62	53,462.75	83,490.83	62,374.03
1895	186,965.00	99,584.07	86,318.33	47,420.80	81,098.71	67,648.90

*The year before consolidation.

As will be seen by the foregoing table, the amount of interest paid out annually by the city has steadily increased. The amount disbursed for this purpose in 1895 was \$67,648.90. Owing to the fact that by recent legislation the city will hereafter be required to pay interest on bridge and ferry bonds amounting to \$550,000, and also interest on an issue of \$200,000 additional bonds for the purchase of Stark Street Ferry and Morrison Street Bridge, this item of interest will be largely increased. I estimate the amount for 1896 at \$101,640, including the \$37,500 not heretofore included in the city's annual levy. It will be observed that to raise this sum alone a two mill tax on a valuation of taxable property of fifty million dollars will be necessary. In other words, this expense which is now, by the Acts of the Legislature, required to be paid out of the funds raised by the city by taxation, will require the city to add two mills to its levy, so that instead of being able to conduct the city affairs upon a total tax of seven mills or less, the levy of some nine mills will be required. This interest item is one of the principal expenses of the city government, and with the expenses of the fire department, police department and street lighting, comprises three-fourths of the total expense of operating the city government.

In relation to the fire and police department, I beg to call your attention to the great reduction of expenditure over previous years. In 1895 the cost of operating the fire department was in round numbers \$100,000.00

against the cost in 1893 of \$150,558.09, a saving over 1893 of \$50,000.00. The expenses of this department have been reduced as low as practicable to maintain its efficiency.

The same may be said of the police department, the cost of which during 1895 was \$86,318.00. In 1893 the cost was \$119,196.43, a reduction of \$32,878. The apparent reduction in the cost of street lighting has not been so large, but since the consolidation of the cities there is such a vast area to be properly lighted that no greater reduction has been found feasible, and, moreover, the number of lights has been largely increased during the year, so that, though the amount actually paid out is but little less than last year, the service has been greatly improved.

I wish to call especial attention to the amount which has been disbursed for the salary of city officers and employes, which is \$72,000. It appears that a large number of our taxpayers think that the principal expense of running the city government is for salaries; whereas, out of over \$600,000.00 annually expended for all city purposes the salaries are comparatively a small portion. The cost of maintaining and operating the street cleaning and sprinkling department for the year 1895 is \$47,420.85, some \$7000 over the estimate. This department is not directly under the control or supervision of the Mayor. I am of the opinion that the city charter should be so changed as to give the Mayor power to appoint a superintendent of this department, who shall have absolute control thereof, and be held responsible for conducting it; in this way, as the other departments under the charge of the Mayor, a reduction in expenditures can be secured.

The crematory and the handling of garbage has cost some \$12,418 for the year 1895. It is not necessary for me to comment on this, as this matter is now in the same condition as it was at the end of the year 1894, and I would refer to my message for that year for a statement of my views upon it.

The expense of maintaining our new city hall building is \$5,000 per annum more than the cost of the old quarters at the corner of Second and Ash streets. We have a building that we may well be proud of, but the additional expense that this administration is subjected to on account of it was not voluntarily incurred by the city officials.

Respecting repairs to streets and bridges, the estimate for 1895 was \$9500, while the cost was \$14,839.31. The principal part of this money was spent for repairs on elevated roadways on the East side, and the expense of keeping in repair these roadways from year to year will be a large item. It is claimed that by the consolidation of the cities this obligation was assumed, and that the City of Portland is required to carry out certain contracts and agreements entered into by the City of East Portland, by which certain streets must be kept in repair by the municipality for a term of years.

Parks and public property have cost the city on an average \$15,000 each year for several years past. I have steadily advocated during the year and a half that I have held the office of Mayor that no money be expended for this purpose until the reservoirs at the City Park are completed. After the reservoirs are completed it will be time enough for the city to have the park grounds laid out by some practical engineer or landscape gardener, and in this way any money afterwards spent from year to year for improvements will be of permanent benefit to the city.

Among other items included in the general fund is the expense for litigation and relief. The estimate for 1895 was \$20,000, but we have paid out about \$38,000, or some \$18,000 above the estimate. This expense arises from errors of previous years, and from the consolidation of the cities, and in this, as well as in the other items which I have called attention to, wherein the expenditures have exceeded the estimate, it will be seen that the difference could not have been foreseen or provided for, and the expense is due to no fault of the present administration.

It is my desire to economize in every branch of the city government. In those departments over which I have sufficient control to be able to regulate the expenditures, a material saving has been effected. In other departments a similar course should be adopted for the ensuing year.

Respectfully submitted,

G. P. FRANK,

Mayor.

the improvement of 11th street.

A tract of land bounded on the south by the north line of block 103, in
Caruthers' addition, on the east by the west line of the proposed extension
of Hood street, on the north by line parallel with and 100 feet north of the
north line of block 103 and on the west by a line parallel with and 100 feet
west of the west line of the proposed extension of Hood street, purchased
May 14, 1884, for the extension of Hood street to its junction with Water
street.

A tract of land bounded on the south by the north line of block 102 in
Caruthers' addition, on the west by the east line of the proposed extension
of Hood street, on the north by a line parallel with and 100 feet north of
the north line of said block 102, and on the east by a line parallel with and
100 feet east of the east line of the proposed extension of Hood street,
purchased May 14, 1884, for the extension of Hood street, to its junction
with water street.

The east half of lot 5, block E, Caruthers' addition; purchased June 18,
1884, for the improvement of Front and South Front streets.

A tract of land in Caruthers' addition and bounded and described as
beginning at a point, where an easterly extension of the north line of Lin-
coln street intersects the east line of the proposed extension of Hood street,
thence northerly along said line 150 feet, thence easterly on a parallel line
with and 50 feet southerly from the north line of the Caruthers' donation
land claim, 100 feet east of the east line of the proposed extension of Hood
street 150 feet, thence easterly on a line conforming to an easterly exten-
sion of the north line of Lincoln street, 100 feet to the place of beginning;
purchased April 2, 1885, for the extension of Hood street.

Lots 5 and 6, block 50, Caruthers' addition; purchased June 11, 1885,
for the improvement of Front and South Front street.

Lots 1, 2, 3 in block 88, city; purchased December 4, 1884, for the
sewer in Stark street.

A tract of land lying between the division line between the north and
south halves of the Blackstone donation land claim, and the south bound-
ary line of Sherlock's addition, and between the east side line of the pro-
posed extension of north 21st street, and a line parallel therewith and 100

feet easterly therefrom in the city of Portland; purchased April 2, 1885, for the extension of North 21st street.

Lots 5 and 6, block 2, Carter's addition; purchased July 9th, 1885, for the improvement of 15th street.

Lot 4, block 3, Carter's addition; purchased February 5, 1885, for the improvement of 15th street.

A triangular piece of land lying between Washington street, B street and Lowndale street; purchased November 7, 1883, for the improvement of B street.

Lots 1, 2, 3 and 4, block 10, Carter's addition; purchased February 5, 1885, for the improvement of 15th street.

Lot 5, in block opposite A, in Caruthers' addition; purchased April 23, 1885, for the improvement of Hood street.

Lots 5, 6, 7 and 8, block 45, in Caruthers' addition; purchased February 5, 1885, for the extension of South Front street.

Lot 9, block B, Caruthers' addition; purchased June 11, 1885, for the improvement of Hood street.

A tract of land between block P and city tracts in the city of Portland; purchased December 4, 1884, for the improvement of Hood street.

Lots 1, 2 and 8, block 35, Carter's addition; purchased February 5, 1885, for the improvement of Montgomery street.

Lots 2 and 3, block 3, Carter's addition; purchased February 5, 1885, for the improvement of 15th street.

North 21 feet of S. $\frac{1}{2}$ of lot 1, in block A, Caruthers' addition; for the improvement of Hood street.

Lot 7, block 113, Caruthers' addition; purchased April 16th, 1888, for the improvement of South First street.

A tract of land which lies between the east line of North Twenty-first street and the west line of Blackistone street in Sherlock's addition and the division line between the north and south halves of Wm. Blackistone donation land claim, and a line 100 feet southerly from and parallel with the south line of X street, saving and excepting that part of lots 1 and 4, which lie in the southeast quarter of block 6, in Sherlock's addition; purchased January 16th, 1890, for the extension of Wilson street.

A tract of land which lies between the west line of North Eighteenth street, and 20 feet west of the west line of North Nineteenth street if extended, and between the north line of the proposed extension of Wilson street, and the division line between the north and south halves of Black-

istone's donation land claim, and between a line 100 feet northerly from and parallel with the north line of the proposed extension of Wilson street, and the south-easterly side line of Sherlock's addition; purchased January 16th, 1890, for the extension of Wilson street.

All that part of Doscher's tract which lies between the east line of Blackistone street in Sherlock's addition, and the west line of North Twentieth street and the division line of the north and south halves of Blackistone's donation land claim, and a line 100 feet southerly from and parallel with the south line of X street; purchased January 16th, 1890, for the extension of Wilson street.

A tract of land which lies between the west line of North Sixteenth street and North Front street, and the east line of North Eighteenth street, and between the north line of the proposed extension of Wilson street, and a line 100 feet northerly from and parallel with the north line of the proposed extension of Wilson street, excepting the right of way of the Northern Pacific Railroad Company and the Northern Pacific Terminal Company; purchased January 16th, 1890, for the extension of Wilson street.

A tract of land being the east 100 feet of the north 30 feet of block south $\frac{1}{2}$ A, city; purchased March 26th, 1884, for the improvement of Tenth street.

Lot 5, block C, Caruthers'; purchased June 18th, 1884, for improvement of Front and South Front streets.

The east half of lot 4, of south $\frac{1}{2}$ of block I, city; purchased June 25th, 1885, for improvement of Tenth street.

The fractional block between Ankeny, Pine, Sixth and Seventh streets; purchased June 19th, 1877, for the improvement of Ankeny street, North Front to West Park streets.

Lot 2, block 2, Frush square; purchased November 2d, 1872, for improvement of J street.

Lot 6, block 1, Frush square; purchased November 2d, 1872, for improvement of J street.

Lot 5, block 1, Frush square; purchased November 2d, 1872, for improvement of J street.

Lot 7, block 1, Frush square; purchased November 2d, 1872, for improvement of J street.

Undivided $\frac{1}{2}$ of lot 7, block 216, Holladay's addition; purchased August 7th, 1887, for improvement of Fourth street.

3x100 feet on the east side of lots 5, 6, block 62, East Portland; pur-

chased December 10th, 1883, for the improvement of Third street.

Undivided $\frac{1}{2}$ of lot 8, block 211, Holladay's addition; purchased August 7th, 1887, for improvement of Fourth street.

Undivided $\frac{1}{2}$ of lot 7, block 211, Holladay's addition; purchased August 7th, 1887, for improvement of Fourth street.

Lots 15, 16, containing $12\frac{1}{2}$ acres of land, Riverside Homestead; purchased July 17th, 1880, for taxes.

Lots 3, 4, block 106, Stephen's addition; purchased July 17th, 1880, for taxes.

Lot 6, block E, Kern's addition; purchased July 17th, 1880, for taxes.

Lot 2, block 79, Holladay's addition; purchased July 17th, 1880, for taxes.

Undivided $\frac{1}{2}$ of lots 1, 2, block 16, McMillen's addition; purchased July 17th, 1880, for taxes.

7 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

10 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

5 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

2 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

5 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

2 acres section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

1 acre section 11, T. 1 S., R. 1 E; purchased July 17th, 1880, for taxes.

East $\frac{1}{2}$ of lots 3, 4, block 21, East Portland; purchased July 17th, 1880, for taxes.

Lots 5, 6, block 17, Tibbett's addition; purchased July 17th, 1880, for taxes.

Lot 19, Riverside Homestead; purchased July 17th, 1880, for taxes.

Lots 1, 2, block 1, McMillen's addition; purchased July 17th, 1880, for taxes.

Lots 5, 6, and the S. 30 feet lot 7, block 243, Holladay's addition; purchased September 12th, 1895, for the improvement of Union avenue.

The undivided $\frac{1}{2}$ of lot 3, block 242, Holladay's addition; purchased September 12th, 1895, for the improvement of Union avenue.

Lots 10 and 11, block 1, East Irvington; purchased September 12th, 1895, for the improvement of East Twenty-fourth street, formerly A street.

Respectfully submitted,

FRANK HACHENEY,

City Treasurer.

REPORT OF
THE SUPERINTENDENT OF STREETS.

OFFICE OF SUPERINTENDENT OF STREETS, }
PORTLAND, OREGON. }

To the Honorable Mayor and Common Council of the City of Portland, Oregon :

GENTLEMEN:—I have the honor to submit herewith my annual report as Superintendent of Streets, for the year ending December 31st, 1895.

No new streets of general interest to the entire city have been constructed during the year, nor has any new paving material been introduced in the improvements made.

It is a subject of regret that complications have existed rendering it impossible to repair and improve the pavements on Washington and Third streets during the past year.

The bituminous rock pavement on these streets has worn so full of holes that the pavements are a disgrace to a city of our pretensions, especially as they are the most prominent business thoroughfares in the city. The concrete foundation on these streets was first class, but owing to the wearing surface of the pavement being so full of holes, much damage has been done thereto, and I predict that by next season the foundation will be worn through in many places. Some of the property owners along these streets are taking the precaution to fill the holes with crushed rock, which will have the effect of preserving the foundation until some plan can be arranged whereby permanent repairs can be made.

It is the disposition of the public in general to criticise this department for the disgraceful condition of these and other streets for which the present administration is in no wise responsible. Every possible effort has been made to have the contractors live up to their agreement, which was to keep these streets in repair for a period of five years. This the contractors have flatly refused to do and a suit instituted against the contractors and their bondsmen is now pending on an appeal to the Supreme Court.

I can assure those interested that nothing would give me more pleasure than to put the necessary repairs on all streets, but there is no fund at my

disposal whereby this could be done. It is doubtful if the Trinidad Asphalt pavement on Morrison and Sixth streets are going to fulfill the expectations of the enthusiasts for that class of pavement. Continual repairs have been necessary on Morrison street, adjacent to the car tracks, and serious disintegration of the asphalt surface is now apparent at numerous places on Sixth street. The necessity for so much repairs on Morrison street is, undoubtedly, mainly due to continual jarring of the heavy cars which cracks the pavement adjacent to the rails of the car tracks. The trouble on Sixth street, however, can not be attributed to this cause, there being no car tracks on the street.

The general condition of the streets throughout the entire city is bad. Few pavements, which might be termed "permanent improvements" have ever been laid in this city. This condition of our streets is far more the result of the objections of property owners to pay for expensive work, which is necessary in order to secure a good street, than any supposed want of plans and projects for pavements which will be durable, permanent and practically noiseless. No cheap pavement can be put on a street and left to take care of itself for a number of years--which has always been the case with our streets--without becoming unsightly and uneven. Our streets will never present a creditable appearance, until such time as the Charter is so amended that the city will take charge of the streets and keep them in repair after once permanently improved by the property owner. The cost of so doing would not be great compared with the benefit derived. At present this department is powerless to act, until a street becomes actually dangerous. If the department of street cleaning and sprinkling was consolidated with this department the extra expense of repairing streets, as above suggested, would be small.

The general public do not seem to understand that no branch of the city government has power to improve streets at their pleasure, or to select such paving material, in improvements made, as the judgment of officials might dictate. It does not seem to be known that a street can only be improved on petition of the adjacent property owners and that the petition must indicate the character and materials to be used in making the improvement and that no deviation can be made, in materials to be used or manner of doing the work from what is expressed in the petition. Ignorance of this fact by the public, is the cause of much censure on the city government.

Macadam streets are the subject of much unfavorable comment, which I do not consider they properly deserve. As a consequence of our system of caring for streets, some macadam which has only been down a few years is in very bad shape, owing to the neglect of the property owner, while other streets improved with macadam fifteen years ago and which

have received proper attention in the way of an occasional load of rock, are in as good condition as when first laid. Macadam, owing to first cost, will, for all time to come, I believe, form the largest part of our streets in the residence portion of the city, and if properly laid and cared for will, in my opinion, give as good satisfaction, cost considered, as any material that can be laid.

While the law provides that property owners shall keep the adjacent streets in repair, it has been the custom to deviate from this, where the improvement consists of a bridge and while strenuous efforts are made to confine this expenditure to the lowest possible limit, still in the aggregate the amount thus expended amounts to quite a sum in the course of a year.

During the past year repairs have been made to bridges as follows :

The bridge on Corbett street at Pennoyer street : Two new sills put in and bents raised and blocked in position.

The bridge on Hood street between Porter and Woods streets : Four new girders put in.

The bridge on Corbett street between Porter and Grover streets : Four new bents put in, also repairs to decking.

Bridge at Fulton Park : 1060 feet of sidewalk, 3 feet wide, with railing on both sides of walk.

Bridge on First street, between Sheridan and Arthur streets : Repairs to railing and sidewalk ; several bents straightened and strengthened by putting in new posts and braces, also two new sills put in.

Bridge on Front street, between Sheridan and Arthur : Entire superstructure reconstructed and new decking and sidewalks throughout ; also several bents straightened and strengthened with new posts and braces.

There was also a new bridge constructed on Sheridan street from Front street to a point 60 feet west of Front street.

Bridge on Chapman street, between Taylor and Main streets : New sill put in and repairs to decking.

Bridge on Chapman street, between Alder and Morrison streets : New sill, and posts straightened in one bent.

Bridge on Nineteenth street, between Morrison and Washington : Re-decked throughout with new sidewalk and railing on west side of bridge.

Bridge on Seventeenth street, between Marshall and Northrup streets : partially re-decked.

Bridge on Pettigrove street, between Seventeenth and Eighteenth streets : Five new sills put in and partially re-decked.

Bridge on Sixteenth street, between Quimby and Raleigh streets: Two new sills, one new stringer the entire length of bridge, and half the roadway re-decked with three inch plank.

Bridge on Fourteenth street, between Quimby and Raleigh streets: West half re-decked with four inch plank.

Bridge on Northup street, between Eighth and Twelfth streets: Re-decked throughout with four inch plank and a sidewalk six feet wide constructed along the north side of the bridge.

Bridge on Eleventh street, between Northup and Quimby streets: Partially re-decked.

Bridge on Front street, between Thurman and Charles streets: Six new posts and partially re-decked.

The Holladay avenue bridge across Sullivan's Gulch: Two new sills and several posts straightened and braced, also repairs to sidewalk.

The Goldsmith street bridge across Montgomery Slough: One new bent put in, three bents straightened and braced and two new batter posts put in.

The bridge on Hawthorne avenue between East First and East Third streets: Re-decked on north side of railway track.

Bridge on Union avenue and East Everett street: Partially re-decked.

Bridge on Union avenue between East Oak and East Washington streets: Partially re-decked.

Bridge on Grand avenue, between East Grant and East Caruthers streets; Entirely re-decked.

Bridge on Grand avenue between East Everett and East Glisan: Partially re-decked.

Bridge at intersection of East Alder and East Eighth street: Re-decked.

Bridge on East Morrison street from East Water street to Union avenue: Re-decked throughout.

Bridge on East Morrison street, between East Seventh and East Ninth street: Partially re-decked.

Bridge on East Oak street, between Union avenue and East Sixth street, has had repairs to bents.

Bridge on East Twelfth street, between East Irving and Pacific streets, has been partially re-decked.

Bridge on East Washington street, between East Sixth and East Eighth streets, has been partially re-decked.

Bridge on East Twelfth street, between East Oak and East Stark streets, has been partially re-decked.

The following improvements have also been made and paid for out of the General Fund:

On Front street, between Hull and Wilson streets, a plank roadway 16 feet wide and 400 feet long was laid.

On the west side of Eighteenth street, between Thurman and Vaughn streets, 200 feet of plank gutter.

On the west side of Twenty-sixth street, between Thurman and Vaughn streets, a sidewalk 400 feet in length.

Four new box gutters across intersections on Thurman street.

New bridge on Twenty-second street, at Nicolai street.

The following statement shows the amount of street work completed during the year:

UNDER ORDINANCES.	
Kind of Work.	Lineal Feet
Sidewalk, wood	12857
Crosswalk, wood	2053
Macadam	3490
Bridge	1666
Plank roadway	3169
Asphalt pavement	460
Graded only	8210
Sewers	22128

UNDER PERMIT.	
Kind of Work.	Lineal Feet
Sidewalk, wood	7657
Sidewalk, concrete	5448
Crosswalk, wood	166
Crosswalk, granite	76
Plank roadway	1220
Stone block pavement	460
Wood block pavement	25
Macadam	2830
Gravel	100
Grading	11609
Box gutter	325
Stone gutter	100

UNDER NOTICES.

Kind of Work.	Lineal Feet
Sidewalk, wood	23304
Sidewalk, concrete	365
Crosswalk, wood	4487

AGGREGATE.

Kind of Work.	Lineal Feet
Sidewalk, wood	43818
Sidewalk, concrete	5813
Crosswalk, wood	6706
Crosswalk, stone	76
Plank roadway	4389
Bridge	1666
Stone block pavement	460
Wood block pavement	25
Macadam	6320
Gravel	100
Graded	19819

The total number of miles of improved streets, sidewalks and crosswalks is as follows:

Kind of Work.	Miles.
Graded only	71.00
Macadam	41.00
Gravel	40.62
Plank	12.26
Bridging	7.36
Stone blocks	4.72
Bituminous rock	2.22
Asphalt	1.59
Brick04
Wood block02
Total	180.83
Wood sidewalk	280.70
Concrete sidewalk	14.90
Asphalt and Bituminous sidewalk	1.45
Total	297.05
Wood crosswalk	36.60
Stone crosswalk	1.36
Total	37.96

PERMITS ISSUED 1895.

To dig up street for laying gas pipe	27
“ “ “ sewer pipe	236
“ “ “ water pipe	121
To use streets for building purposes	345
To use streets for moving houses	21
To improve streets	149
To erect private lights	66
Total	965

Cost of buildings as shown by permits: \$577,100.00.

NOTICES ISSUED 1895.

To repair sidewalk and crosswalk	1205
To fill holes in street	48
Miscellaneous notices	252
Total	1505

During the past year plans and specifications have been prepared by this office as follows:

ELEVATED ROADWAYS.

East First street, from the north line of Broadway to the south line of Weidler street.

East Main street, from the east line of East Water street to the west line of East First street.

East Water street, from the north line of Hawthorne avenue to 12 feet north of the south line of East Washington street.

East Water street, from the north line of East Oak street to 12 feet north of the south line of East Washington street.

PLANS FOR SEWERS.

East Fifteenth street, from 100 feet north of East Morrison street to a connection with the sewer in East Taylor street.

East Thirty-fifth street, from the north line of East Morrison street to a connection with a sewer in East Yauhills street.

East Alder street, from 20 feet west of East Ninth street to a connection with the sewer in East Seventh street.

East Morrison street, from 75 feet east of East Eighteenth street to a connection with the sewer in East Sixteenth street.

East Taylor street, from the west line of East Twenty-sixth street to a connection with the sewer in East Nineteenth street.

San Rafael street, from 175 feet west of Rodney avenue to a connection with the sewer in Williams avenue.

Williams avenue, from the south line of Page street to a connection with the sewer 50 feet south of San Rafael street.

Sellwood street, from the west line of East Seventh street to a connection with the sewer in Union avenue.

Hood street, from 80 feet south of Gibbs street to a connection with the Woods street gulch sewer.

East Clay street, from 80 feet east of Union avenue to the Willamette river.

East Third street, from 42 feet north of Hancock street to a connection with the sewer in Schuyler street.

Crosby street, from 50 feet south of Halsey street to a connection with the sewer in Holladay avenue.

Lovejoy street, from 340 feet west of Twentieth street to a connection with the sewer 10 feet west of Nineteenth street.

East Seventh street, from the north line of East Lincoln to Hawthorne avenue; thence to East Ninth street; thence in East Ninth street to a connection with the Asylum Creek sewer.

Rodney avenue, from Sacramento street to Hancock street; thence to East Second street; thence to a connection with the sewer in Schuyler street.

East Twentieth street, from East Washington street to a connection with the sewer in Belmont street.

Belmont street, from 30 feet west of East Thirty-second street to a connection with the sewer in East Thirty-first street.

Vancouver avenue, from 100 feet north of Hancock street to a connection with the sewer in Wheeler street.

Macadam street, from 80 feet south of Gibbs street to a connection with the Woods street gulch sewer.

First street, from 80 feet south of Whitaker street to a connection with the Woods street gulch sewer.

Vancouver avenue, from 100 feet north of Hancock street to a point 200 feet south of Tillamook street.

East Twelfth street, from the north line of East Alder street to a connection with the sewer in Hawthorne avenue.

East Alder street, from the west line of East Fourteenth street to a connection with the sewer in East Twelfth street.

East Morrison street, from 75 feet east of East Fourteenth street to a connection with the sewer in East Twelfth street.

Belmont street, from 75 feet east of East Fourteenth street to a connection with the sewer in East Twelfth street.

Pacific street, from 75 feet east of East Eighth street to a connection with the sewer in Grand avenue.

Rodney avenue, from 125 feet north of Sellwood street to Stanton street; thence in Stanton street to a connection with the sewer in Williams avenue.

East Eighth street, from Broadway to a connection with the sewer in Stanton street.

Eugene street, from 125 feet east of Union avenue to East Seventh street; thence to a connection with the sewer in Hancock street.

East Twelfth street, from East Washington street to East Alder street.

East Eleventh street, from Division street to a connection with the sewer in Hawthorne avenue.

East Salmon street, from East Twenty-third street to a connection with the sewer in East Fourteenth street.

General plan for the Irvington sewer district.

SEWERS.

During the past year there has been constructed 22,128 lineal feet of sewer at a total cost of \$16,793.11, while during the year 1894 there was constructed 17,368 lineal feet of sewer at a total cost of \$21,195.31; an increase in the length of sewers constructed of 4760 feet and a decrease in cost of \$4,402.20.

This difference is owing to low prices of labor and materials and sharp competition in bidding.

The quality of material and workmanship has been equal, if not superior, to any heretofore performed in this city.

Numerous repairs have been made to various sewers throughout the city where stoppages have occurred, but no extensive work has been necessary to any one sewer during the year.

The sewerage system of the city at present consists of 70.45 miles of pipe sewers varying in diameter from 8 to 24 inches; 10 miles of brick and stone sewers varying in diameter from 24 to 84 inches, and .34 miles of

wooden box sewers, connected with which are 1467 catch basins for carrying off the storm water.

This immense extent of sewers requires a special force cleaning catch basins and removing obstructions, so as to keep the sewer in proper condition to readily remove all sewerage and surface water. Notwithstanding the utmost vigilance, a sewer will occasionally get clogged. In the past this has been the case more especially at the heads of the large brick sewers in Tanner and Johnson creeks, where, during exceedingly heavy rains, a large amount of debris is carried down the streams emptying into these conduits, and despite all efforts of men placed to keep the gratings clear, logs, brush and rocks have piled up faster than they could be removed, forming a dam and turning the water down the highways. While the amount of damage has generally been slight, it is a matter of regret, although unavoidable, that such annoying disasters should occur. Extra precautions have been taken to prevent a recurrence of this trouble by constructing extra gratings and removing as far as possible all logs and loose material from the creek beds for a long distance above the heads of the sewers.

During the year 19 new catch basins have been built to connect with sewers previously constructed; the expense being paid out of the General fund. They are located as follows:

- 1 catch basin at First and Arthur streets.
- 1 catch basin at Fourth and Washington streets.
- 1 catch basin at Twenty-first and Hoyt streets.
- 1 catch basin at Twenty-fifth and Savier streets.
- 1 catch basin at St. Clair and Jefferson streets.
- 1 catch basin at Ford and Jefferson streets.
- 1 catch basin at Seventh and Johnson streets.
- 1 catch basin at Sixth and Johnson streets.
- 1 catch basin at Sixth and Irving streets.
- 1 catch basin at Hood and Lincoln streets.
- 1 catch basin at Eighteenth and Thurman streets.
- 2 catch basins at Stanton and Commercial streets.
- 2 catch basins at Hancock and Union avenue.
- 1 catch basin at Twenty-second and Lovejoy streets.
- 1 catch basin at Twenty-second and Marshall streets.
- 2 catch basins at Twenty-first and X streets.

The following tabulated statement shows the location, size, cost, etc., of each sewer constructed during the year:

SEWERS CONSTRUCTED IN 1895.

Ord. No.	LOCATION.	Mate'l	Size in in.	Length in feet.	Date of Acceptance	Name of Contr.	Cost.

CITY PARK.

The principal work done at the City Park, outside of the regular attention given to beautifying the previously improved portion, has been in making changes, rendered necessary by the construction of the reservoirs. The principal changes, which was in the re-location of walks, drives and

buildings, are now about completed. New buildings have been erected and improvements made as follows:

Stable for horses, wagon shed, two animal cages, 8 acres sown to grass, 200 trees and shrubs planted, 5000 square feet of flower beds set out and cultivated, 10,000 cubic yards of earth moved, 1000 feet of new walk, 1500 feet of carriage drives, 1200 feet of concrete gutter laid, 400 feet of cedar hedge set out, 500 feet of board fence, three swings for children, 50 rustic seats and repairs made to old seats, interior of owl castle fitted, 1200 feet of water pipe laid, 200 feet of sewer.

Cast iron posts and chains have been put around the Chapman and Lownsdale Squares and iron seats placed therein.

The following is a list of animals now in the City Park:

1 Kangaroo	7 Raccoons
5 Monkeys	3 Wildcats
2 Badgers	35 rabbits
12 Angora hares	2 Wolves
2 Mountain lions	3 Coyotes
4 Skunks	4 Foxes
4 Bears	2 Parrots
2 Cockatoes	1 Crow
1 drumming pigeon	1 Paroquet
1 Cockateel	50 Canaries
1 Java Sparrow	1 Pea fowl
6 Bantams	7 Owls.
5 Chicken hawks	5 Bird hawks
5 China pheasants	2 Alligators
60 Pigeons	2 Swans
3 Ducks	3 Geese
4 Mandarin ducks	12 Quails
3 Wild ducks	1 Seal
4 Quinea pigs	10 Deer
5 Elk	3 Horses

ELECTRIC LIGHTS.

At this date the City is lighted by 638 arc lamps of 2000 candle power and 695 incandescent lamps of 25 candle power; an increase of 15 arc lamps and a decrease of 1 incandescent lamp during the year.

All that portion of the city lying on the east side of the river is lighted by 335 arc and 14 incandescent lamps and that portion of the city on the west side of the river by 303 arc and 681 incandescent lamps.

On the 1st day of April, 1895, the city entered into a new contract for a period of two years with the Portland General Electric Co., whereby the city agreed to pay \$8.62½ cents per month for each incandescent lamp in use for street lighting purposes on said date and \$8.00 per month for each additional arc lamp, and \$1.50 per month for each additional incandescent lamp, in excess of the number of lamps in use at that time; each lamp to be kept burning from "twilight at day to daylight the following morning." As a result of this contract the city is now paying \$8.62½ per month for 627 arc lamps; \$8.00 per month for 11 arc lamps and \$1.72½ per month for 695 incandescent lamps.

The Police Department furnishes this office a daily report of all lamps not burning and length of time out, and deductions are made from the monthly bills for all such lights out so reported.

The service has been exceptionally good and the Electric Company has always been very prompt in remedying any defect.

The total cost of lighting the city for the past year has been 80,562.28.

Hereto is attached a list of property in my care and custody and belonging to the city. All of which is respectfully submitted.

H. D. GRADON,

Superintendent of Streets.

IN OFFICE.

2 gas permit books	2 building permit books
2 notice books to trim trees	3 notice books to fill holes
3 index books to cabinet	5 sewer record books
2 copy books	3 electric light books
4 scrap books	2 plumber record books
2 water permit books	4 maps of city, '84, '93 and '94
4 sewer permit books	7 inkstands
6 requisition books	3 flat rulers
7 sidewalk books (notice to repair)	1 record book of bridges

1 small T square	1 record book authorizations
3 steel erasers	1 feather duster
3 ink wells	2 draughting boards and trusses
2 triangular scales	2 small draughting boards
2 waste baskets	1 umbrella stand
1 letter press size "b"	2 patent rubber stamps
1 record of animals City Park	2 mucilage wells
1 walnut revolving chair	5 books (removing obstructions)

1 scoop shovel	25 feet ½ in. hose and nozzle
1 engine regulator	1 21 in. monkey wrench
1 8 in. monkey wrench	1 socket wrench
1 2½ in. pipe die stock	8 pipe dies, ¼, ⅜, ½, ¾, 1, 1¼, 1½, 2½ and 3 in.
1 stilson wrench	75 ft. 1½ in. hose and nozzle
1 flue auger	1 feeder oil can
1 squirt oil can	1 fire hoe
1 broom	1 3½ in. pipe die stock
1 1¼ in. square rammer	

CITY SURVEYOR'S REPORT.

CITY SURVEYOR'S OFFICE,
PORTLAND, OREGON, January 4, 1896. }

To the Honorable Mayor and Common Council of the City of Portland:

GENTLEMEN:—I herewith submit for your consideration the annual report of the City Surveyor for the year ending December 31, 1895, as provided by section 4, Ordinance No. 1410, containing tabulated statements of street and sewer work estimated and done, street extension surveys, and work done by permits issued by the Superintendent of Streets, also a tabulated statement of the sewers constructed for each year from 1875 (the date of the first sewer constructed) to date, and a statement of the length in lineal feet and miles of the different kinds of pavements, sidewalks and crosswalks.

While there has been quite a falling off in street improvement work owing to the stringency of the times, the sewers constructed during the year of 1895 exceeds that of the previous year by 7374 lineal feet. For each sewer constructed this department is called upon to make at least three surveys. First, levels of the center line of the proposed sewer for the Superintendent of Streets to draw his plans and establish the grade, and frequently surveys and levels are necessary of the adjoining territory to enable an accurate calculation of the sizes of the sewer or sewers to be constructed. Second, a survey defining the center line and grade of said sewer. Third, after the sewer is constructed testing the grade of the same.

Aside from the ordinary detail work connected with this department in the office and the field, we have been engaged in placing at odd times street monuments in different portions of the city defining the center lines of streets; in the northern portion of the city, on the west side of the river, some 52 monuments were established and an ordinance adopting the same was passed by your honorable body. On the east side of the river street monuments have been set embracing nearly all of the improved portions. The value of these monuments can only be appreciated by surveyors who have occasion to use them in surveying some lot or block, or by some property owner who desires to construct an expensive structure, and this department in making surveys for street and sewer improvements. Prior to the location of these monuments the surveyors were governed by original stakes, fences, buildings, and any other obtainable data. Stakes decay and rot out, or are pulled up or knocked down in one way or another, fences are oftentimes set carelessly and even buildings, and surveys made from them

as a starting point are generally unsatisfactory and lack precision. Our courts hold: "that purchasers of town lots have the right to locate them according to the stakes which they find planted and recognized, and no subsequent survey can be allowed to unsettle them;" how necessary is it then for the surveyor with proper authority when many of these stakes are still standing as originally located to place some permanent monuments of iron or stone so that the position of these original stakes may at any time in the future be determined with accuracy. However, street monuments so placed are of little benefit to property owners, or any one else, (except perhaps the surveyor who set them) without they be recognized by the public as official and to make them official in the case of the city, I am of the opinion that they should be adopted by the city by ordinance. A large number of monuments have been set in the central portion of the city on the west side of the river, between Hall street and Ankeny street, in some locations more than is necessary; several ordinances have been passed by the Common Council authorizing the setting of these monuments, generally leaving it discretionary with the City Surveyor as to their location. The only record showing their location is in this office and many of the monuments are marked on the record as doubtful, not reliable, etc. I am inclined to believe that they were originally set accurately, and in the proper place, and that they have become unreliable and doubtful by reason of the monument settling to one side from one cause or another; some have been dug out during the progress of street improvements and replaced by the contractors, no care being exercised to retain their original location. These monuments should be corrected and to make them official an ordinance passed by the Common Council adopting the same and defining the districts which they are intended to govern. Owing to the absolute necessity of economy in the administration of the city government, the correction of these monuments will necessarily have to be postponed to some future time, the work requiring a large amount of tedious measuring and transit work, and the location of all of the expensive buildings and structures to avoid complications; yet, being in the business portion of the city it is hazardous for a property owner to construct an expensive building without challenging trouble with his neighbor.

The atlas map which we have had under the course of construction for some time, now embraces nearly the whole city; the general reference to it by the public and the different departments of the city, I feel, warranted the time and labor expended on it.

Thanking your honorable body for the many courtesies extended,

I remain,

T. M. HURLBURT,
City Surveyor.

SEWER WORK ESTIMATED DURING 1895.

Number	Name of Sewer	Extent of Sewer
2	Union ave.	80 ft. n. of E. Stark st. to sewer in E. Alder st.

ANNUAL REPORT

—OF THE—

MUNICIPAL JUDGE,

FOR THE YEAR 1895.

OFFICE OF THE MUNICIPAL JUDGE,
OF THE CITY OF PORTLAND. }

PORTLAND, OREGON, December 31st, 1895.

To the Honorable, the Mayor, and Common Council of the City of Portland :

GENTLEMEN :—Herewith I present my report of the amounts received during the year of 1895, from City and State cases tried in the Municipal Court.

The following is a summary given by months :

January, 1895.

State cases, . . . \$192.50 City cases, . . . \$613.00 Total . . . \$ 805.50

February, 1895.

State cases, . . . \$ 92.50 City cases, . . . \$341.50 Total . . . \$ 434.00

March, 1895.

State cases, . . . \$153.75 City cases, . . . \$414.00 Total . . . \$ 567.75

April, 1895.

State cases, . . . \$ 30.00 City cases, . . . \$380.00 Total . . . \$ 410.00

May, 1895.

State cases, . . . \$142.50 City cases, . . . \$430.00 Total . . . \$ 572.50

June, 1895.

State cases, . . . \$ 90.50	City cases, . . . \$474.00	Total . . . \$ 564.50
-----------------------------	----------------------------	-----------------------

July, 1895.

State cases, . . . \$207 50	City cases, . . . \$448.50	Total . . . \$ 656.00
-----------------------------	----------------------------	-----------------------

August, 1895.

State cases, . . . \$201.00	City cases, . . . \$326.00	Total . . . \$ 527.00
-----------------------------	----------------------------	-----------------------

September, 1895.

State cases, . . . \$135.00	City cases, . . . \$778.75	Total . . . \$ 913.75
-----------------------------	----------------------------	-----------------------

October, 1895.

State cases, . . . \$100.00	City cases, . . . \$725.00	Total . . . \$ 825.00
-----------------------------	----------------------------	-----------------------

November, 1895.

State cases, . . . \$ 68.00	City cases, . . . \$594.00	Total . . . \$ 662.00
-----------------------------	----------------------------	-----------------------

December, 1895.

State cases, . . . \$100.00	City cases, . . . \$771.00	Total . . . \$ 871.00
-----------------------------	----------------------------	-----------------------

Total for year		\$7809.00
--------------------------	--	-----------

Respectfully,

B. M. SMITH,

Municipal Judge of the City of Portland.

POLICE COMMISSIONERS' REPORT.

PORTLAND, OREGON, January 10, 1896.

To the Honorable Mayor and Common Council of the City of Portland, Oregon, and the Committee on Ways and Means of said Council:

GENTLEMEN :—The undersigned, Police Commissioners of your city, herewith submit to you for consideration, the accompanying revised estimate of the expenses of managing the police department of the city of Portland for the ensuing year, and in explanation desire to say :

When we made the estimate submitted to you last month, we were of opinion that the force should be retained at its present number and efficiency, and that estimate was as low as could be safely depended upon therefor. But reports received since from the State and County, indicate that by reason of extravagant appropriations and other expenditures authorized by our last legislature, our State taxes for this year will exceed any ever before known in Oregon, and that the County tax will be necessarily high on account of the expense of ferries, bridges, etc., saddled upon it by that legislature. These with the city tax, rendered, by recent State legislation absolutely necessary to maintain the credit of the city, by the payment of the interest on its bonded indebtedness will, with the utmost economy on the part of the city, necessitate a tax levy which will be burdensome to many in these times of business depression.

In consideration of these facts we deem it of the utmost importance that we reduce the expenses of this department to the lowest practicable point, even if in so doing we shall in a measure reduce the number and efficiency of the force.

You will observe that our estimate is much below the cost of the department for last year, and less than one half of the cost of the department for the year 1893.

The attempt to run the department upon less than one half of what it has cost in the recent past, we recognize as experimental in a measure, but

we believe such attempt will meet the approval of the taxpayers of the city, and as they *supply* the funds we regard their will as entitled to a controlling influence in the matter of the *expenditure* of those funds.

Very respectfully,

G. W. BATES,
P. L. WILLIS,
A. B. CROASMAN.

PORTLAND, January 10, 1896.

REVISED ESTIMATES.

Salaries	\$55,500 00
Board of prisoners	1,000 00
Expense of patrol wagon	100 00
Board and shoeing horses	700 00
Repairs of police building	50 00
Fuel	300 00
Light	500 00
Books and printing	100 00
Telegrams	50 00
Telephones	200 00
Contingent expenses	500 00
Total	\$59,000 00

REPORT OF CHIEF OF POLICE.

PORTLAND, OREGON, January 7th, 1896.

To the Honorable the Board of Police Commissioners:

GENTLEMEN:—As is the custom in all cities of any note, either by ordinance or common custom, the Chief of Police of the city is expected to make an annual report of the condition of the department, together with any suggestions that may seem applicable and necessary to make the police force more efficient; and herewith I beg to submit to your Honorable Body my full and complete report, under the various heads of the department, together with a few suggestions of which I ask your careful consideration, providing first that the financial condition of the city and your good judgment shall justify.

First. That as soon as practicable, a police telegraph call-box system be put in on the East side of the river, thereby bringing the entire East side into closer communication with the Central Station; which will, perhaps, enable us to do away with a few men on that side of the river.

Second. I would also call the attention of your Honorable Body to the fact that we have no call-box or telephone south of the Failing school; and as the outskirts of the city are continually growing more rapidly all the time, it would materially assist the department to have a call-box and booth at Second avenue, there being situated there now several business houses and one or two saloons. And for the purpose of doing this, would suggest that Box No. 31, now situated on Fourth and Market streets could be used, without injuring the service, as, at its present location, it is not used very often.

Third. That in the northwestern portion of the city, we have no box north or west of Seventeenth and Savier streets. Box No. 12 at the First National Bank, First and Washington streets, is not used much of late years, and could be spared to be placed at the corner of Twenty-third and Savier streets or Twenty-fourth and Savier, with good effect.

Fourth. Would also recommend that when the Board thinks it advisable, a good boat be provided, properly equipped for two men, and that two men be appointed especially adapted to the business of handling a boat, who should patrol the water front during the night from the Boneyard on the north to above the Madison street bridge on the south. This, it appears to me, is very necessary, as a great deal of petty stealing and pilfering is

being done by river pirates, and more or less damage is being done to the numerous mills, factories, warehouses and docks along the river front, and this method would very much increase the efficiency of the force in preventing these depredations.

I make these suggestions, of course, with a view of having the board consider the matter, and take into consideration the expenses that would be necessary to carry them into effect.

I have also prepared for the consideration of your Honorable Body, a comparative statement of the expenses of the Portland Police Force for the years 1893, 1894 and 1895, showing the net cost of the department to the taxpayers :

1893.

Warrants drawn upon the city treasury by Police Department . . . \$118,005.10
 Fines collected and paid into General Fund 8,581.45

Net cost to taxpayers \$109,423.65

1894.

Warrants drawn upon the city treasury by Police Department . . . \$102,179.36
 Fines collected and paid into General Fund 3,802.40

Net cost to taxpayers \$ 98,376.96

1895.

Warrants drawn upon the city treasury by Police Department . . . \$ 84,420.38
 Fines collected and paid into General Fund 7,811.50

Net cost to taxpayers \$ 76,608.88

Thus, you will see there is a saving :—

For year 1895 over year 1893 of \$ 32,814.77
 For year 1895 over year 1894 of 21,768.68

The total of arrests for all offenses during this period is :—

For the year of 1893 4,618
 For the year of 1894 3,844
 For the year of 1895 3,721

A full and extended detailed report of the arrests for all offenses for the year 1895, is submitted below.

I further desire to call your attention to the reports of eleven different cities, making a comparative statement of population and proportionate number of police with our own, as shown by the latest census returns :

City.	Population.	No. Police.	Population to each Officer.
New York	1,513,501	4,566	331
Chicago	1,099,133	3,100	354
St. Louis	460,357	805	572
San Francisco	297,990	482	618
Cincinnati	296,309	483	613
Grand Rapids	100,000	100	1000
Nashville	90,000	97	928
Richmond	90,000	100	900
Los Angeles	70,000	83	843
Duluth	70,000	78	897
Charleston	70,000	103	680
Portland	81,342	80	1016

Thus you will see that the number of our force, compared with that of other cities, is proportionately very small. This city, according to statistics, covers 40 square miles, and has 181 miles of improved streets and 297 miles of sidewalk.

HEALTH DEPARTMENT.

As health officers, the following is a resume of the work of the Department during the year.

MARRIAGES: It is found from the records of the County Clerk that there were 164 marriage licenses issued during the first quarter of the year, 216 during the second, 178 during the third, and 206 during the fourth, making a total of 763; the greatest number any one month (80) were issued during the month of June, and the least (50) during the month of February.

BIRTHS: In former years, physicians and midwives did not comply strictly with the ordinance requiring births to be reported to this Department, and as a result the number fell far short of the actual number born. During the present year they have been notified in various ways that the ordinance must be complied with, and as evidence of the fact that they have done so, I have only to say that there were 886 more births reported this year than there was during the year of 1894.

The total number of births reported was 1333, seven of which were twin births 34 still-born and 21 premature births. The sex given was, males 653 and females 680, the latter outnumbering the former by 27. Of these 1321 were white, 7 colored and 5 Mongolian. 359 occurred during the first quarter of the year, 308 during the second, 314 during the third and 316 during the fourth. The greatest number reported during one month (204) being in January, and the least (86) in March. There were 486 less deaths than births.

DEATHS: The total mortality for the year was 847; 11 more than in 1894. Of these, 504 were males and 343 females—161 more males than females. 762 were white, 8 colored and 77 Mongolian. Of their social state 344 were married, widows or widowers, 151 were single aged 20 years and over and 303 were single under 20 years of age, and 49 were reported as "unknown."

Estimating the population of the City at 81,000, the rate of mortality exclusive of deaths from still and premature causes, and of persons here for treatment, would be 10.34.

Consulting the tables submitted herewith giving the mortality in detail, you will find that deaths resulting from Pulmonary and cancerous causes out-number other diseases considerable. Such should not be taken as deaths occurring from these causes among our own people, for the death certificates show a large proportion of them to have been contracted by persons non-resident who were here for treatment, this being especially noticeable in the cases of the Chinese, their manner of congregating in great numbers in unsanitary quarters breeding diseases of the lungs.

CONTAGIOUS DISEASES: On account of the dangerous character of diphtheria, every precaution was taken to prevent its spread. Whenever reports from physicians, who reported very promptly, came to hand, the Superintendent of Schools and the City Physician were at once notified, giving the name and the residence of the person afflicted, and through the energy of these officials, the disease was kept within fairly close quarters. There have been quite a number of cases of scarlet fever, the most of which however, being of a mild nature. The same precautions were taken to prevent its spread as were taken in cases of diphtheria. The fatality among those having had typhoid fever I deem for the most part due to residence in portions of the City which have not as yet been provided with sewerage, or were contracted elsewhere and were here for treatment.

SANITARY CONDITIONS: The City, in a sanitary sense, is in a far better condition than it was at the time of filing my last report, still, with all that has been accomplished, notice of improvement, at least on the east side of the river, is hardly perceptible. Complaints are constantly being filed, urging the abatement of privy vaults of next-door neighbors, and upon inspection of the locality, it is found that the only permanent relief for the trouble is in the construction of a sewer, and while temporary relief has been attempted, it has been the aim of the Department to give permanency to its work, and to this end, residents in the vicinity of the trouble have been induced to petition the Common Council for the construction of a sewer.

Very nearly all improvements in this line have been pushed by the Department to commencement, and were it not that matters of a financial nature figured largely in the premises, other needed sewerage would no doubt have been constructed.

The usual amount of nuisances have been reported, and learned of through a house-to-house inspection by the officers assigned to duty in this division of the Department. For the greater portion of the year but one officer has been in active charge of the work, though there are now two thus engaged. The work performed has not been of a character the most pleasant, and the amount accomplished is unmistakable evidence that those in charge have attended to their duties with faithfulness and in a systematic manner.

It gives me pleasure to state that in all the work done incident to this division, that much more has been corrected than could have been brought about, through the able advice and co-operation of the City Physician.

REPORT
OF THE
BOARD OF FIRE COMMISSIONERS.
1895.

OFFICE OF THE BOARD OF FIRE COMMISSIONERS, P. P. F. D. }
PORTLAND, OREGON, January 1, 1896. }

To the Honorable the Mayor, and Common Council of the City of Portland :

GENTLEMEN:—In compliance with Section 179, of "An Act to incorporate the City of Portland," the Board of Fire Commissioners have the honor to submit to your honorable body, a report in detail, of the revenues and expenditures of the Fire Department for the year 1895, and also an estimate of the amount of salaries and other necessary expenses of the Department for the ensuing year, together with such information and recommendations necessary for the efficiency of the Department.

ESTIMATE OF EXPENSES FOR 1895.

Hose	\$ 2,000 00
Hydrants	1,000 00
Horses	1,000 00
Horse shoeing	1,500 00
Veterinary surgeon	280 00
Horse feed	5,600 00
Telephones	1,100 00
Lighting	1,700 00
Fuel	1,800 00
Small stores	500 00
Water supply	6,350 00
Incidental expenses	2,000 00
Rents	1,680 00

SUMMARY FOR THE YEAR 1895.

Total amount of receipts	\$105,641 86
Total amount of expenditures	99,849 83
Amount of receipts not expended	\$ 5,792 03

FIRE DEPARTMENT FUND.

Deficit in fund January 1, 1895	\$ 15,624 74
Amount of revenue for 1895, not expended	5,792 03
Deficit in fund January 1, 1896	\$ 9,832 71

In making up our estimate for last year we thought at the time that we had figured the expenses as low as it was advisable to go without impairing the efficiency of the department, but as you can see by the total amount of the expenditures made during the year, which is \$99,849.00, we have made a still further saving to the city of \$10,000.00. And while we do not think

it possible under the present arrangements to operate the Fire Department at any less expense than we have done during last year, still there is one account, in our judgment, might be dispensed with, and that is the cost of maintaining the fire hydrants belonging to the Hydraulic Elevator Company on Front and First streets. If arrangements can be made with the Water Commissioners whereby the hydrants could be connected with the city mains by them, a further reduction of about \$3,000.00 could be made; but in our opinion this is the only account which could be reduced below the figures we have given in our estimate.

Very respectfully yours,

S. FARRELL, President,
H. S. ROWE,
WM. FLIEDNER,

Fire Commissioners.

H. H. HOLMES,
Secretary.

REPORT

OF THE

CHIEF ENGINEER

OF THE

PORTLAND PAID FIRE DEPARTMENT.

PORTLAND, OREGON, December 31, 1895.

To the Honorable, the Board of Fire Commissioners :

GENTLEMEN:—I have the honor of submitting herewith my annual report of the Fire Department for the year ending December 31st, 1895, being my first annual report and the thirteenth of the Paid Fire Department of the city of Portland.

ORGANIZATION AND EQUIPMENT.

The fire department as now constituted, under control of your honorable body, consists of a Chief Engineer, an Assistant Chief Engineer, two District Engineers, one Secretary, one Superintendent of Fire Alarm Telegraph, one Fire Alarm Repair man, one Supply Driver, 6 Steam Fire Engine Companies, manned by 50 men, 3 Chemical Engine Companies, manned by 9 men, 4 Hook and Ladder Companies, manned by 40 men, 5 Hose Companies, manned by 30 men, 53 horses, all in good condition, 4 Reserve Steam Fire Engines, one fourth-class Hayes Truck, and one Two-Wheeled Hose Cart, all in fair condition.

Our Paid Fire Department is supplemented by the following Volunteer Fire Companies in suburban districts, to which we have furnished respectively, hose reels and a village truck, and the following amounts of hose :

Portland Heights	1	hose reel and 600 feet hose
Stephens' Addition	1	hose reel and 700 feet hose
Piedmont	1	hose reel and 900 feet hose
Fulton Park	1	hose reel and 700 feet hose
Multnomah	1	hose reel and 600 feet hose
Woodlawn	1	hand village hook and ladder truck
Sellwood	1	extension hook and ladder truck with Babcocks and fully equipped

HOSE.

In the Paid Fire Department there is in service rubber hose, 7540 feet; cotton hose, 3800 feet; and in the Volunteer Companies rubber, 3500 feet, making a total of 14,840 feet of hose in actual service.

COAL ON HAND.

Engine Co. No. 3	coal ½ ton
Engine Co. No. 4	coal 1 ton
Engine Co. No. 5	coal ½ ton
Engine Co. No. 7	coal ½ ton
Engine Co. No. 8	coal 1 ton
Hose Co. No. 1	coal 2 tons
Hose Co. No. 3	coal 1 ½ ton
Hose Co. No. 6	coal 1 ton

FIRE ALARMS.

The total number of alarms responded to during the year were 224, of which there were 134 from boxes, 81 still alarms and 9 telephone alarms.

Of the total number of alarms, 102 of them were attended by no losses, and 13 of them were false alarms.

The total fire losses amounted to \$139,611.20, of which 6 of the largest fires aggregated \$80,391.00.

HYDRANTS.

I hereby report having located and changed the following additional hydrants:

1	Seventh and Johnson, northwest corner
1	Stout and Madison, northwest corner
8	At North Pacific Mill
1	Seventeenth and Wilson, northwest corner

1	At St. Vincent's Hospital
2	On Marguerite avenue
1	Thirty-fourth and E. Hawthorne ave., northeast corner
1	Milwaukie and East Rhone
4	On Milwaukie Road
1	Ninth and Spokane avenue, southwest corner
1	Eighth and Spokane avenue, southwest corner
1	Second and Umatilla avenue, southwest corner
1	Eighth and Umatilla avenue, southwest corner
1	Sixth and Umatilla avenue, southwest corner
1	Tenth and Umatilla avenue, southwest corner

1	Sixth and Spokane avenue, southwest corner
1	Fourth and Marion avenue, southwest corner
1	Fourth and Umatilla avenue, southwest corner
1	Fourth and Central avenue, southwest corner
1	Fourth and Spokane avenue, southwest corner
1	Tenth and Tacoma avenue, southwest corner
1	Twenty-first and Beacon, southwest corner
1	Sixth and Clackamas avenue, southwest corner
1	Thirty-fourth and Franklin

Total 36 Hydrants

OLD HYDRANTS REPLACED WITH NEW ONES.

1	Alder and Sixth, northeast corner
2	Third and Madison, southwest corner
3	Third and Salmon, southeast corner
4	Third and Vamhill, southwest corner
5	Third and Ankeny, southwest corner
6	Third and Burnside, southwest corner
7	Third and Couch, southwest corner
8	Third and Davis, southwest corner
9	Third and Flanders, southwest corner
10	Third and Everett, southwest corner
11	West Park and Washington, southwest corner
12	Fourth and Madison, southeast corner
13	West Park and Jefferson, southwest corner
14	Seventeenth and Jefferson, southeast corner
15	Twenty-third and Washington, northeast corner
16	West Park and Salmon, northwest corner
17	First and East Washington, southwest corner
18	Twenty-first and East Bush, southeast corner
19	Eighth and East Stephens, southwest corner

RECOMMENDATIONS.

Under this head I would like to suggest the purchase of a first-class engine, a water tower and a fire-boat; but fully realizing that the taxpayers, at the present time, are bearing all the expenses that they are well able to stand, and knowing that your honorable board are fully alive to the requirements of the department equally with myself, and would equip the department with everything needed if the time would admit of it, I will not at the present time make such recommendations.

There are two things, however, I feel it my duty to recommend, and that is the purchase of a three-way siamese, and 1600 feet of cotton hose. The siamese is a very

valuable piece of apparatus in case of a large fire, and the 1600 feet of cotton hose to be placed in service at Engine Co. No. 7, where they have a tower which is required for the drying of the hose, and to prevent it from rotting.

Having, by your instructions, located and connected with the city water mains at Sellwood 17 hydrants, and the water pressure being very good, I recommend the placing in Engine House at Sellwood of a hose cart and 800 feet of rubber hose, which would give that portion of the city good fire protection.

In closing this report, I desire to tender my thanks to his honor, Mayor Frank, and the honorable board of fire commissioners for the active interest they have manifested in all matters pertaining to the success of the department, and I desire also to thank the officers and members of the fire department for the alacrity manifested on all occasions in complying with my orders. I also desire to express my thanks to the Chief of Police and members of his force for the manner in which they have assisted this department in the discharge of their duties on all occasions.

Respectfully submitted,

DAVID CAMPBELL.

Chief P. P. F. D.

FIRES AND ALARMS

—FROM—

JANUARY 1 TO DECEMBER 31, 1895

JANUARY.

Wednesday 2d, 1:00 a. m. Box 135.

No. 147 Sixth street. 3 story frame, owned by P. A. Marquam, and occupied by J. Chandler as a fruit store; cause, unknown; loss, \$112.39; insurance, \$9000.

West Side of 20th street, between Quimby and Raleigh.

A. M. DONALDSON, *Asst. Chief Engineer,*
Keeper of Corporation Yard.

GEO. GAYHART, Driver of Supply Wagon.

INVENTORY.

2 third-class Silsby engines, worthless, 1 four-wheel hose carriage, 1 hose cart, 2 stoves, 1 heater, worthless, 1 circulating tank, 1 set Clapp and Jones wheels, 4 extra wheels, 1 axle, 1 set Clapp and Jones coil tubes, 600 feet rough lumber, 1 tongue for truck, 5 hand tongues, 2 transoms, 1 pair wagon shafts, 14 doors, 2 door frames, 2 transom frames, 1 sky-light frame, 2 hose wagon tongues, 1 engine tongue.

STOREROOM AT HEADQUARTERS.

13 iron collars, 3 window shades, 1 cellar pipe, 1 hand tongue, 1 chandelier, 1 gong, 1 set of chain for extension to truck, 2 hose clamps, 1 door mat, 2 feed boxes, 1 pitch fork, 1 Johnson pump, 1 lamp, 4 headlights, 1 diving suit, 2 suction baskets, 13 old lanterns, 1 harness hanger, 3 pieces window glass, 3 patterns, 4 pipes, 1 wire cutter, 2 sets frames for ladders, 5 axes, 5 ax handles, 6 feet Babcock hose, 1 pair single trees, 21 nozzles, 4 brass valves, 1 leather bucket, 1 can oil, 1 set engine grates, 1 heater grate, 1 pair iron hubs, 1 cast iron elbow, 1 ceiling spring, 5 engine springs, 1 block and tackle, 5 roof cutters, 13 lamp chimneys, 4 door springs, 1 galvanized iron bucket, 7 link blocks, 4 steel taps, 18 boxes axle grease, 1 package lantern wicks, 4 glass stoppers for chemical, 2 water glasses, 1 screw driver, 1 brace, 2 coils packing, 1 box vials, 12 cone valves, 8 leather valves,

10 6-inch, 7 5-inch and 6 4-inch valves for hydrants, 4 discharge valves for Clapp and Jones engines, 13 feet suction for same, 10 pounds rubber packing, 5 pounds lighting compound, 1 door, 1 flue cleaner, 1 lamp, 4 large chimneys, 3 wrenches, 3 tube wrenches for Clapp and Jones engines, 1 set double harness, 2 sets single harness, 2 leather collars, 1 leather saddle, 1 pair 4-horse lines, 1 pair single lines, 2 bridles, 3 old halters, 1 set 3-horse lines, 1 hose tester, 5 old chairs, 1 table, 14 feet chain, 8 springs for ceiling, 1 old steam gauge, 2 spanners, 10 feet halter chain, 86 1-inch Copper tubes for Amoskeag engine, 29 2-inch and 40 1¼-inch nipples for Clapp and Jones engine, 41 iron plugs, 10 connections for tubes, 1 4-horse whip, 12 rounds for ladders, 15 pounds waste, 5 pounds oakum, 2 old brushes, 1 set Babcock stands, 1 rope reel, 1 box old harness, 1 crow bar, 1 telescope suction.

ANNUAL REPORT

OF THE

Superintendent of Fire Alarm Telegraph

1895.

A. J. COFFEE, Superintendent. J. S. CALHOUN, Chief Repairer.

PORTLAND, OREGON, January 1, 1896.

To the Honorable Board of Fire Commissioners, of Portland, Oregon :

GENTLEMEN:—In accordance with the rules and regulations (Section 6) I have the honor to submit herewith the thirteenth annual report of the Fire Alarm Telegraph, and to make such recommendations for your consideration as in my opinion are necessary.

There have been very few improvements made to the system during the past year, and as much as it was desired to add new boxes and extend the service to unprotected districts, it has been deemed inadvisable to do so owing to the prevailing sentiment for a reduction in our expenditures for this department.

I appreciate the fact that your Honorable Board would have carried out my recommendations of last year, and made all desired improvements but for the reason stated.

I earnestly hope that the appropriation for the coming year may allow of these extensions and improvements, and that the unprotected districts may be supplied with fire alarm boxes.

One additional fire alarm box, No. 267, has been located at the southeast corner of East Water and East Main streets by the Standard Oil Co. for the protection of their warehouse and surrounding property.

A loop, one-half mile in length, was run into the pumping station at the new reservoirs, and a gong was installed there so as to notify the engineer should more water be needed at any time than is ordinarily supplied by the high service pumps.

No other apparatus or line has been put up, and only the material which was absolutely necessary to maintain the service in an efficient manner, was used.

Our fire alarm service has been excellent during the year and has given general satisfaction in all cases, with the exception of one instance, which occurred on the evening of April 5th, 1895, at 8:55. Boxes 25 and 43, located at corner Fourteenth and Northup streets, and Weidler's Mill, respectively, were pulled for the Portland Iron Works fire, and there was a serious mix-up of the alarms which caused confusion. The reason of this was due to the alarm boxes being pulled at the same time, and as this style of box is not entirely non-interfering, we suffered the consequence. We have a number of partially non-interfering boxes in the system which should be made absolutely non-interfering or replaced with the boxes manufactured by the United States Fire and Police Telegraph Co. of Boston, Mass. We have fifty-one of their boxes in the system, and they have proven themselves perfectly non-interfering under all conditions, and with their application, an experience such as occurred on the occasion of the Portland Iron Works fire would be impossible. I will state that the inferior style of boxes were installed before the United States Co.'s apparatus was put upon the market.

When the new City Hall was constructed, quarters for the accommodation of the fire alarm telegraph were designated, and it was the intention to move our central office and battery into them. This was not done in the interest of economy. I earnestly hope there will be sufficient funds this year to move in our new quarters, and to fit up the office and battery room in a modern manner, and in keeping with the beautiful structure that has been furnished us. It is my intention to make this office a model of electrical perfection and manipulation, which can be done with small expense.

The storage battery has now come into use for power purposes, and is being very generally adopted for furnishing the necessary power to run the fire alarm and police telegraph systems in eastern cities. I have carefully investigated the merits of the application of the storage battery for fire alarm purposes, instead of the gravity battery, and I find it far superior in many instances. The expense of maintaining this battery would be about one-fourteenth of the cost of the gravity battery, and the cost of making the change would not exceed the cost of one year's maintenance of our present system. The storage battery takes up about one-third the space and is very much cleaner about the premises, requiring very much less labor to manipulate. As the adoption of the storage battery will be a great saving in our yearly expenditures, I earnestly recommend that the change be made as soon as possible.

I wish to renew my recommendations of last year, which have not been carried out, owing to a lack of funds:

The telephone lines in the department houses that have not been supplied with gongs, should have a suitable bell, of a size that could be heard in any portion of the building at any time; the small magnetos furnished by the Telephone Company are insufficient and at times cannot be heard.

I have found the need of a light spring wagon for repairing purposes. Our lines cover a good deal of ground, and many times it is necessary to take out a coil of wire and more tools than two men can carry. We can not wait for a conveyance, as the trouble on the wires must be attended to without delay, day or night, and an available conveyance would greatly aid us in making these repairs.

The Board of Fire Commissioners' office should be supplied with an automatic time stamp and register, in order that each alarm should be accurately timed from first signal to the recall; each signal over the lines would be recorded to the second, which would be of great advantage as a matter of record.

We have several districts that are badly in need of fire alarm boxes, and I trust a sufficient amount may be available, to furnish the most urgent localities with fire alarm facilities.

Reference will be had to the following pages for a complete list of the location of boxes, inventory of apparatus, line, battery and tools.

NOTE—*National Automatic Fire Alarm Boxes.

In conclusion, I wish to tender my sincere thanks to your Honorable Board, and to the officers and members of the Fire Department for the many favors shown me in the discharge of my duties.

Very respectfully,

A. J. COFFEE,
Supt. Fire Alarm Telegraph.

FIREMAN'S MUTUAL RELIEF ASSOCIATION

OF THE

PORTLAND FIRE DEPARTMENT,

FOURTH ANNUAL REPORT

OF THE

INSPECTOR OF PLUMBING AND DRAINAGE

For the year ending December 31, 1895.

*To the Honorable, the Mayor, and the Common Council of the City of
Portland, Oregon:*

GENTLEMEN:—I have the honor to submit the following report of the Department of Plumbing and Drainage for the year 1895:

New buildings with entire new system of plumbing	209
Old buildings with entire new system of plumbing	264
Buildings connected to the public sewer	332
Old buildings in which the plumbing was remodeled and ventilated	364
Buildings connected to cesspools outside of sewer district.	142
Cellar drains connected to the public sewer by permission	23
Reports of defective plumbing and drainage received	291
Reports of defective plumbing and insanitary condition of premises received from the health department	524
Abatements of defective plumbing returned to the health department	504
Written notices served to improve the sanitary condition of plumb- ing and drainage.	585
Improved the plumbing and drainage on verbal notice	239
Water from the roof of buildings connected to the public sewer by permission.	18
Written communications received relating to unsanitary condition of premises	59
Inspections of plumbing and drainage.	1482
Inspections of unsanitary premises with defective plumbing and drainage.	629
Licensed plumbers.	41

During the present year the public sewer has been extended 9486 feet, and furnishes drainage accommodations for 218 blocks. The extension of the public sewer has been of inestimable value to the healthfulness of the districts it serves. The removal of the overflowing cesspool and foul open vault is made possible, and many of them have been removed and filled up, while connections have been made to the public sewer as promptly as the sanitary conditions of the premises demanded.

The amendment to the ordinance requiring cesspool construction within 100 feet of a water supply when outside of sewer district, has been a source of relief to many, especially on the East side of the river. Many of the numerous petitions for sewer extensions have been brought about by orders to construct cesspools and connect the house drainage; while there have been 142 buildings connected to cesspools, many have objected to them and petitioned for sewers and the improvement permanent.

The new work has been principally resident buildings, which has greatly limited the volume of the plumbing business, yet during the year there has been erected quite a number of handsome and substantial buildings of brick and stone, whose architectural structures are modern in design and appointments, and which have been fitted up with plumbing fixtures of the most approved pattern with the ventilation and drainage arranged as required by the ordinance.

There has been an increased amount of remodeling and repair work over the report of last year, which is of importance to the general health of the City in the sanitary improvement it represents.

I have found but little objection to the remodeling and repairs ordered, as the importance of sanitary improvements are better understood, more appreciated, and less difficult to secure. It is a source of satisfaction to be able to report so much improvement in the sanitary condition of the City.

There are 28 public school buildings within the City, which accommodate nearly 9000 pupils. I have made a thorough examination of these buildings and find that many of them are supplied with the most modern and best of sanitary fixtures, and others have been carefully remodeled so as to place them in a sanitary condition.

The School Directors have expended during the year \$7,000 on remodeling and placing new plumbing fixtures in school buildings and all within the sewer districts are connected to the public sewer with all fixtures, provided with sewer and local ventilation. The buildings situated out of the sewer limits are supplied with open vaults located at a distance from the buildings, and receive as careful supervision as the circumstances of location will permit.

There have been several cases of scarlet and typhoid fever reported by the teachers in the public schools, which occasioned some alarm, yet, by the prompt use of sanitary measures in the homes, the public schools have been uninterrupted during the year.

Respectfully submitted,

E. J. FLOYD,

Inspector of Plumbing and Drainage.

REPORT

—OF THE—

INSPECTOR OF STEAM BOILERS,

For Quarter ending June 30, 1895.

To the Honorable Mayor and Common Council:

GENTLEMEN:—I herewith submit to your honorable body the report of the Inspector of Steam Boilers for the quarter ending June 30, 1895:

BOILERS.

Month ending April:

Boilers under 10 H. P., 18 at \$3 00	\$ 54 00
