To the city of Portland,

The situation here in Portland is at extreme point. I'm mad, angered and just plain fed up with our leaders in this city. They do nothing to enforce any policy whatsoever. I am sick and tired of all the garbage filth, and unsanitary conditions here. I don't feel safe just walking in my neighborhood. I'm a tax paying citizen who has been contributing to the betterment of this city I call home for the last 26 years and I am disgusted with what is going on here. If the City is doing anything, it's forcing the good, honest, tax paying citizen out of our beloved city.
