My name is Danny Davis and I live in North Portland. I am a homeowner and I am writing to say it is time to stop talking and it is time to ACT! The council keeps talking about no camping near school, no camping near busy roads and you say you are banning those activities yet there is zero enforcement???? Taxpayers need to see your detailed plan not hear talk with no follow through. I pay taxes for garbage on my sidewalks, human feces in my neighborhood, needles littered about and I will not allow my 13 year old to walk alone in our Portland proper neighborhood by Peninsula park???? My taxes should be decreased if you're not going to provide the BASICS!

The pandemic is over and unauthorized camping need to end immediately!! It is nothinane to have people living on sidewalks and defecating and urinating and piling up garbage. So you are making the problem worse by allowing it. It needs to end before there are shelters. You keep kicking the can down the road. It's time to act and serve the people paying for the city for all the services and paying your salary!!

Danny Davis
