This is to provide my support for the proposed plan to address homelessness. Portland is suffering from a few issues, but the issue of homelessness is a negative for the people that gather in Portland core area is a genuine need that may be addressed by the proposed plan, and I support it as a city planner, architect, business owner in Portland and resident in Portland. I look forward to the results of the meeting later this week. Sorry that I am out of town, but wanted to let you know that this multifaceted proposal seems to make sense.
