Subject: End camping in the city
Date: Tuesday, October 25, 2022 9:46:36 AM

It is so frustrating and infuriating that Portland government has let this city down. For a government that cares about its people they are doing an horrific job of taking care of them. To let any human live in the streets is inhumane. Blaming it on money, other groups or anything is unacceptable. This is an emergency. Take care of your people. The theft, garbage, mentally ill, drug addicted are making it so unsafe people are often afraid to leave their home. Why should we pay our taxes? The city government isn't doing their job. The number one problem in this city is the homeless. Get your shit together and do what we pay you to do. Take care of the people in Portland.
