I'm a voter from inner SE Portland and funder of the Homeless Services Tax. I want to see the mayor's plan enacted immediately using the funding that is currently supporting the Office of Homeless Services (OHS).

OHS has shown it self to perpetuate an unacceptable status quo and must be closed.

Change must happen immediately. We have gathered the money, we have the will, and we WILL have the necessary leadership. I do not want to vote for right wing candidates, but if you force a choice between that and continuing to keep camping on Portland streets legal I'm willing to do it and so are most of the people I know.
