---

How do we address the states minimum wage law that doubled the federal causing higher cost on us who has a income of half the poverty level.

If my SSDI check was based at 15.00 a hour poverty I could afford a studio.

So I'll ask again. What about the income stolen fm us who pays for the higher wages being passed down in cost.

A gar of peanut butter at Walmart in Knoxville Tennessee is 1.00 less then here. Shop labor in Knoxville TN is almost 100.00 hour cheaper.

So no additional paycheck given to us elders will never end the homeless issue.

Remember this. I swore not to break the law so I can see my kids and stay out of jail.

Making a law now that I didn't promise to will make me owe you if jailed. I swore only would I go back is for murder.
