---

All -

As a citizen of inner SE Portland, with businesses in SE, as well as much of my doctor/appointments happening downtown, I cannot express enough how much I want to advocate for a coordinated response on removing unsanctioned camping. It has affected my home and work, as well as made me feel like maybe I don't want to be in the city any more... something I could not conceive of a couple of years ago.

Please follow through on this action!

Thank You
