I am a provider of low income housing for disabled adults, and I know the struggle they have to afford rent. But its not right for city leaders to allow those who use illegal drugs to camp wherever they want while the rest of us have to clean up the messes left behind. Our citizens deserve safe, clean sidewalks, and the use of our own properties and city parks without fear of harrassment or assault. Please put a stop to unsanctioned camping, set up some centralized camping areas where there will be services like bathrooms and trash pick up, and enforce the laws that we have on the books. Its time that our city works for those who actually pay taxes.

Respectfully,
Robin Purvis
