Mr. Mayor:

Re: Your latest homeless proposal.

The most effective way to remove homeless drug addicts that have our Sumner neighborhood under siege is to forcibly relocate them to a homeless camp you're proposing. Suggesting or urging them won't cut it. They get high, party all night, vandalize cars, steal whatever they can, and sleep during the day. They're working age men that have no interest in holding a job and being responsible citizens.

Question: What will you do when these homeless dopers refuse help to get off the streets? Many have already claimed in media interviews they don't want to follow shelter rules and claim shelters are less safe.

We want our city back, Mr. Mayor, how about it?

Sincerely,

Marvin Thiessen

Sumner Neighborhood
