Subject: Homeless camps, open sale and use of drugs, vandalism, and mental illness
Date: Wednesday, October 26, 2022 8:14:29 AM

We have been living with these problems for years now with promises of funding that will help clear the streets of tents, trash, people wandering through the streets high on drugs, screaming obscenities and making threatening comments to passers-by, but we have seen little if any assistance from our city government.

Use City funds now to:

- Clean up our city and enforce no camping laws in public places
- Provide services for the drug addicted and mentally ill living on the streets
- Provide oversight of city parks so they once again provide safe areas for children and families
