I am a resident at 7704 se 20th ave, portland Oregon. I fully support the current plan reduce homelessness by immediately opening the three camps for the homeless and removing all other camps from public property, sidewalks, parking lots, and streets. I also fully support reducing the barriers for persons to receive mental health counseling or detox services from the city. Lastly, the city must take steps to arrest and prosecute any person exhibiting violence towards others, engaging in human trafficking, dealing narcotics, and or illegally possessing firearms. This includes those living in the homeless camps.
