Subject: wheeler"s proposal for homeless camping
Date: Thursday, October 27, 2022 7:20:12 AM

Hello,

We fully support taking a FEMA type approach to our crisis on the streets and Mayor Wheeler’s plan receives our support. In our area I find myself limiting where I go so I can remain as safe as possible. Currently there is a large camp under the Sellwood Bridge and others in the Sellwood Waterfront Park. I simply can’t go to those places any longer for safety reasons. And we are seeing trailers and some cars throughout our neighborhood, parked in front of homes and/or the large substation on SE 13th. I not only have concern for safety with this but the environmental impact of garbage and human waste is huge. And allowing these folks to remain in this condition is not compassionate at all.

Thank you for your efforts with this. Please don’t back down!

Regards, Britt and Diane Tucker
