Mayor and Commissioners - I am in favor of the Mayor's proposal. Our streets and neighborhoods have been overtaken with the homeless. In addition to the sanitation and safety issues, some of these campsites have grown far beyond a tent into large debris piles. This violates many provisions of public land. We have tried many options - it is time to get camping off of the public streets, parks, and private lands.

Please vote to approve this measure and enact it as quickly as possible.
