Subject: amendments for items 927-931
Date: Thursday, November 3, 2022 9:53:26 AM

If you are not putting the voices of those facing homelessness and their advocates in the forefront of your plans then you do not care about finding a solution. You need them if you want to succeed, and the people who are being affected deserve to be heard and to lead themselves. You cannot push people into a favela and call it a day. To prioritize displacement is irresponsible, inhumane, and ignorant. It will not end well.
