Impact Statement

Purpose of Proposed Legislation and Background Information

The request is not for a legislative action, but for approval of a Type III quasi-judicial land use review. The request is to amend the Comprehensive Plan Map and Zoning Map designations on the site.

Quasi-judicial procedures described in Zoning Code Chapter 33.730, commonly known as land use reviews, are handled by the Bureau of Development Services. Quasi-judicial procedures specifically describe the City Council as the decision-maker for Type III Comprehensive Plan Map Amendments and concurrent review requests, per 33.730.030.F.3.a(2).

The Hearings Officer has recommended approval of the land use review with conditions. Staff will be presenting the Hearings Officer's recommendation at the hearing.

Financial and Budgetary Impacts

This is not a legislative action. There are no costs to the City associated with this quasi-judicial land use review. The City resources necessary to review the application are covered by the land use review fees paid by the applicant.

Community Impacts and Community Involvement

The standard public involvement procedures for a Type III land use review process have been followed. A public hearing with the Hearings Officer was held regarding the proposal. Testimony in favor of the proposal was received by a nearby property owner and the Alberta Main Street nonprofit community association. At the hearing, a nearby resident raised concerns about increased traffic and lack of parking: the approved, under-construction hotel on the northern portion of the lot and any new development, including construction to increase residential density. Also, the resident raised concerns about the potential gentrification impacts from the approved, under-construction hotel and would like to see a requirement that the Owner provide affordable housing or ensure that people of color are able to reside at the Property.

The Hearings Officer addressed each area of testimony, including the applicant's rebuttal, in his recommendation and concluded that, on balance and with conditions, the proposed amendment to the Comprehensive Plan Map is found to be equally supportive of the Comprehensive Plan as a whole compared to the current designation. The Hearings Officer recommends three conditions that limit building height, add a minimum residential density, and prohibit a transfer of floor area to the adjacent ownership site.

Budget Office Financial Impact Analysis

This is not a legislative action. The City resources necessary to review the application are covered by the land use review fees paid by the applicant.
