Procedure: Type I, an administrative decision with appeal to the Oregon Land Use

Board of Appeals (LUBA).

Proposal:

The applicant is seeking Historic Resource Review approval for a proposal to:

- replace two windows on the side of the subject house with French doors, trimmed to match other opening on the house; and
- add new wooden porch outside the new doors.

Historic Resource Review is required because the proposal is for street-facing exterior alterations on a contributing resource in a Conservation District.

Approval Criteria:

In order to be approved, this proposal must comply with the approval criteria specified in the Portland Zoning Code (Title 33 of the Portland City Code). The approval criteria are:

Community Design Guidelines

ANALYSIS

Site and Vicinity: The subject property is a 1910 bungalow form house and is considered a contributing resource in the Piedmont Conservation District, a mostly residential area of the city which developed in the early decades of the Twentieth Century.

The single-dwelling zones, including R5, are intended to preserve land for housing and to provide housing opportunities for individual households. The zones implement the comprehensive plan policies and designations for single-dwelling housing.

The Historic Resource Protection Overlay zone protects certain historic resources in the region and preserves significant parts of the region's heritage. The regulations implement Portland's Comprehensive Plan policies that address historic preservation. These policies recognize the role historic resources have in promoting the education and enjoyment of those living in and visiting the region. The regulations foster pride among the region's citizens in their city and its heritage. Historic preservation beautifies the city, promotes the city's economic health, and helps to preserve and enhance the value of historic properties.

Land Use History: City records indicate there are no prior land use reviews for this site.

Public Notice: A "Notice of Proposal in Your Neighborhood" was mailed on February 27, 2014.

Neighborhood Review: No written responses were received from either the Neighborhood Association or notified property owners in response to the proposal.

ZONING CODE APPROVAL CRITERIA

Chapter 33.846.060 - Historic Resource Review

Purpose of Historic Resource Review

Historic Resource Review ensures the conservation and enhancement of the special characteristics of historic resources.

Historic Resource Review Approval Criteria

Requests for Historic Resource Review will be approved if the review body finds the applicant has shown that all of the approval criteria have been met.

Findings: The site is located within the Piedmont Conservation District and the proposal is for a non-exempt treatment. Therefore Historic Resource Review approval is required. The approval criteria are the *Community Design Guidelines*.

Staff has considered all guidelines and addressed only those applicable to this proposal.

Community Design Guidelines

- **P2. Historic and Conservation Districts.** Enhance the identity of historic and conservation districts by incorporating site and building design features that reinforce the area's historic significance. Near historic and conservation districts, use such features to reinforce and complement the historic areas.
- **D6. Architectural Integrity.** Respect the original character of buildings when making modifications that affect the exterior. Make additions compatible in scale, color, details, material proportion, and character with the existing building.

Findings: The proposed French doors represent a treatment that was relatively common in the period when the subject property was developed, and because it is in an area where there are already two openings, the installation will have only a

minimal effect on the architectural integrity of the building. *These guidelines are met.*

DEVELOPMENT STANDARDS

Unless specifically required in the approval criteria listed above, this proposal does not have to meet the development standards in order to be approved during this review process. The plans submitted for a building or zoning permit must demonstrate that all development standards of Title 33 can be met, or have received an Adjustment or Modification via a land use review prior to the approval of a building or zoning permit.

CONCLUSIONS

The purpose of the Historic Resource Review process is to ensure that additions, new construction, and exterior alterations to historic resources do not compromise their ability to convey historic significance. This proposal meets the applicable Historic Resource Review criteria and therefore warrants approval.

Procedural Information. The application for this land use review was submitted on February 14, 2014, and was determined to be complete on February 24, 2014.

Zoning Code Section 33.700.080 states that Land Use Review applications are reviewed under the regulations in effect at the time the application was submitted, provided that the application is complete at the time of submittal, or complete within 180 days. Therefore this application was reviewed against the Zoning Code in effect on February 14, 2014.

ORS 227.178 states the City must issue a final decision on Land Use Review applications within 120-days of the application being deemed complete. The 120-day review period may be waived or extended at the request of the applicant. In this case, the applicant did not waive or extend the 120-day review period.

Some of the information contained in this report was provided by the applicant.

As required by Section 33.800.060 of the Portland Zoning Code, the burden of proof is on the applicant to show that the approval criteria are met. The Bureau of Development Services has independently reviewed the information submitted by the applicant and has included this information only where the Bureau of Development Services has determined the information satisfactorily demonstrates compliance with the applicable approval criteria.

This report is the decision of the Bureau of Development Services with input from other City and public agencies.

Compliance with the applicable conditions of approval must be documented in all related permit applications. Plans and drawings submitted during the permitting process must illustrate how applicable conditions of approval are met. Any project elements that are specifically required by conditions of approval must be shown on the plans, and labeled as such.

These conditions of approval run with the land, unless modified by future land use reviews. As used in the conditions, the term "applicant" includes the applicant for this land use review, any person undertaking development pursuant to this land use review, the proprietor of the use or development approved by this land use review, and the current owner and future owners of the property subject to this land use review.
