

PORTLAND PLAN MEASURES AT-A-GLANCE

This focused list of measures provides a snapshot of the current state of the city and an overview of the challenges that stand between where Portland is today and where Portland wants to be by 2035. The purpose of these measures is to provide a sense of where the city is headed and of current conditions related to our past performance and future goals. These measures cannot and are not intended to tell us everything about each topic.

Please see the Measures of Success section for more information.

1 EQUITY AND INCLUSION
