

[Women]

To the Hon.

The Mayor & Common Council
of the City of Toronto.
Gentlemen,

I desire to call your attention
to the efficiency of a powder which I am
introducing throughout the City for pro-
moting health in localities where contagious
or other diseases become prevalent through
want of proper sanitary condition. It is
a composition to be burned particularly
in crowded quarters, and is attested by
many of the leading physicians of the
City as being a health-promoting ar-
ticle. I would suggest its adaptability
to those quarters of the City commonly
known as 'Chinatown' & think it advis-
able to compel them to apply it to
use in their Buildings.
