

## Written Testimony - Agenda Item 330

Agenda Item	Name or Organization	Position	Comments	Attachment	Created
330	Ryan Cox	Oppose	Project cost grossly excessive for limited scope of work. Project also includes installation of a dangerous crosswalk (no control light, obstructed vision around curve) and should not be allowed to proceed. There is a much safer crosswalk a few hundred ft away at Naito and Davis. On ramp to Steel Bridge should be reopened to reduce pedestrian driver conflict caused by the 3 right turns now required to legally access bridge SB via Everett instead of SB on Naito.
